THERABREATH × THE FLAVOR FACTORY
The Future of Freshness
A working session with Church & Dwight Oral Care R&D
MONDAY, NOVEMBER 9, 2026 · DARWIN ROOM · PRINCETON, NEW JERSEY

THE FLAVOR FACTORY · NORCO, CALIFORNIA

Who we are

We're a wholesale flavor manufacturer. We make liquid and powder flavors for just about anything: food and beverage, bakery, dairy, syrups, confectionery, pharmaceutical, nutraceutical, personal care, oral care and even animal food. That range is what we bring to TheraBreath.

WHAT WE TEST IN THE LAB

- Volatile aromatics
- Sensory perception
- Cooling
- Trigeminal sensations
- Taste masking
- Solubility
- Stability
- Oral-care systems

WHAT WE BRING IN FROM OUTSIDE ORAL CARE

- Culture
- Emotion
- Consumer expectation
- Food and beverage trends
- Hospitality
- Beauty
- Wellness
- Travel
- Ritual

You asked to see our creativity, technical expertise, and innovation capabilities. *That's what we're here to show you.*

WHAT WE WANT TO ACCOMPLISH

Three things this morning, *built around your four objectives.*

01 What's changing

01 Identifying emerging flavor, sensory, and consumer trends that could influence the future of oral care.

10:10 TO 10:22

02 What the samples tell us

02 Exploring new flavor territories and sensory experiences that can differentiate TheraBreath from competitors and create memorable consumer experiences.

10:22 TO 11:20

03 What we work on next

03 Developing innovative flavor concepts that unlock new usage occasions, address new consumer segments, and create opportunities for portfolio expansion.

04 Generating a pipeline of innovation platforms, flavor directions, and white-space opportunities that have the potential to drive incremental growth across the portfolio.

11:20 TO 11:50

AND THE GOAL BEHIND THEM

"...new flavor experiences that both *strengthen our appeal with existing loyal users* and *create opportunities to attract new consumers to the franchise.*"

Source: Ross Conroy, Church & Dwight Oral Care R&D, workshop invitation, September 18, 2026

TheraBreath took the burn out of mouthwash.

The next job is giving more people a reason to want it.

PART 1 OF 3 · 10:10 TO 10:22

What's changing

FROM ROSS'S INVITATION

"Identifying emerging flavor, sensory, and consumer trends that could influence the future of oral care."

HOUSEHOLD PENETRATION

86 out of 100 households don't buy TheraBreath yet.

Flavor could give more of them a reason to try it.

TheraBreath reached a record 26.8% of mouthwash in Q3 2026, number 2 in the category. Even so, most households still don't buy it, and 35 in 100 don't buy mouthwash at all.

Source: Church & Dwight Q3 2026 earnings call, October 30, 2026. TheraBreath 14%, mouthwash category 65%

YOUR PORTFOLIO TODAY · 25 FLAVORS ACROSS SIX FORMATS

There's a lot of room around mint.

RECENT LAUNCHES · ALL PUBLIC

Your competitors are launching flavors, *mostly as limited editions.*

JULY 2025

Listerine

Watermelon Mint. Alcohol-free, for a limited time, and only at Target.

Dentistry Today, July 18, 2025

MARCH 2026

Listerine

Citrus Mint, with grapefruit and yuzu. Alcohol-free, at Target.

Dentistry Today, March 12, 2026

MARCH 2026

TheraBreath

Eucalyptus Mint, only at Target.

DrBicuspid, March 3, 2026

JUNE 2026

Listerine

A range of intensities, down to Extra Mild, pointing to the 54% of Americans who want a milder-tasting mouthwash.

Kenvue press release, June 2, 2026 (the 54% figure: Kenvue / Suzy survey, 2024, n = 1,019)

2025 TO 2026

Hismile

Toothpaste as entertainment, with tie-ins to Lucky Charms, Reese's, KFC and more.

CTV News, June 1, 2025 (KFC); License Global, July 2, 2025 (Lucky Charms); DesignRush (Reese's)

WHERE YOU STAND

TheraBreath has been alcohol-free and dye-free from the start. It has OXYD-8, and it already has a kids line. *So the real question is how flavor keeps it ahead.*

WHAT WE'RE SEEING

Seven trends, *three conversations.*

01 The feel of freshness

People want milder mouthwash · How it feels is part of the product · Many people live with dry mouth or changed taste

02 Botanicals and herbs

Botanicals are showing up in daily routines · Warm spices are showing up in fresh flavors

03 Fruit and playful flavors

Fruit flavors are growing up · Sweeter, more playful flavors are reaching oral care

CONVERSATION 3 OF 3

Fruit and playful flavors

Fruit flavors are growing up.

Black Currant is McCormick's 2026 Flavor of the Year.

McCormick press release, December 9, 2025 · seen in food and flavor

Sweeter, more playful flavors are reaching oral care.

Perfumer & Flavorist's April 2026 review of oral care names fun flavors, brand tie-ups and functional confectionery among the forces behind new products.

Perfumer & Flavorist, "From Mint to Marshmallow: The Sensory Revolution in Modern Oral Hygiene," April 29, 2026 · seen in oral care

FOR THE ROOM

Where is the line between fun and too sweet for TheraBreath?

FOUR DIRECTIONS · OUR VIEW, NOT DATA

Where we think flavor could go. *Two are in today's tasting.*

IN TODAY'S TASTING · TWO SAMPLES IN YOUR FRESH BREATH BASE

Plant-Powered Freshness

Citrus, herbs and a touch of floral, always finished with mint.

FOR DISCUSSION · NO SAMPLE TODAY

Global Brightness

Citrus people already know, taken somewhere new.

FOR DISCUSSION · NO SAMPLE TODAY

Modern Clean

Green, gentle freshness for people who find mouthwash too strong.

IN TODAY'S TASTING · TWO SAMPLES IN YOUR KIDS BASE

Next-Generation Kids

Flavors that make kids actually want to rinse.

FOR THE ROOM

Which direction feels most like TheraBreath, and which one stretches it the most?

Global Brightness and Modern Clean are for discussion: nothing to taste for them today. Which sample is which comes after the tasting.

PART 2 OF 3 · 10:22 TO 11:20

What the samples tell us

FROM ROSS'S INVITATION

"Exploring new flavor territories and sensory experiences that can differentiate TheraBreath from competitors and create memorable consumer experiences."

THERABREATH × THE FLAVOR FACTORY

The Future *of Freshness*

BEFORE WE TASTE

What to taste for.

01
Flavor

Most of what we call flavor is really smell. The rest is how it feels: cooling, tingle and warmth.

02
Cooling

Cooling does two jobs: the hit when you first rinse, and how long it lasts.

03
The finish

A TheraBreath flavor can start anywhere, but it has to finish clean.

04
The base

OXYD-8 is tough on the bacteria behind bad breath, and that makes it tough on flavor too. That's why all four samples are made in your bases. They're still development samples, and we're testing how they hold up over time.

Source: Perfumer & Flavorist, "From Mint to Marshmallow: The Sensory Revolution in Modern Oral Hygiene," April 29, 2026; US Patent 6,582,682 (public). Public chemistry only. No TheraBreath or TFF formula details

THE BLIND TASTING · MADE IN THE BASES YOU SENT · 0 PEOPLE HAVE SCORED

Four samples, *tasted blind.*

SCAN TO VOTE

Score each one on your phone or on the paper card. Once everyone's done, we'll tell you what they are.

	FLAVOR APPEAL	FIT WITH THERABREATH	NEWNESS	WHO IT'S FOR
A Berry Blast Blueberry, Blackberry, Raspberry				
B Mystery Flavor				
C Blossom Mint Grapefruit, Lavender, Rose, Spearmint, Wintergreen				
D Grove Mint Spearmint, Peppermint, Wintergreen, Rosemary, Ylang Ylang, Eucalyptus				

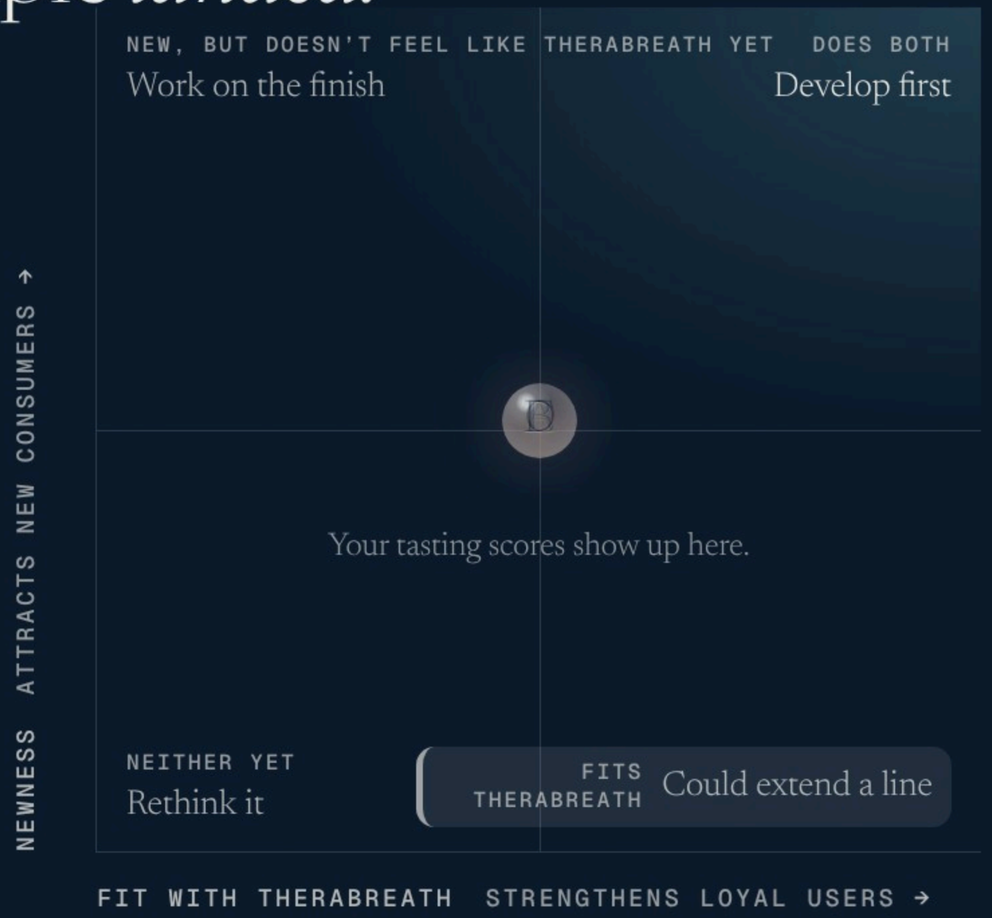

Your one-word answers will show up here.

FROM YOUR SCORES · 0 PEOPLE

Where each sample *landed.*

Our goal, as R&D, is to drive incremental growth through flavor innovation by identifying and developing new flavor experiences that both *strengthen our appeal with existing loyal users* and *create opportunities to attract new consumers to the franchise.*

PART 3 OF 3 · 11:20 TO 11:50

What we work on next

FROM ROSS'S INVITATION

"Developing innovative flavor concepts that unlock new usage occasions, address new consumer segments, and create opportunities for portfolio expansion."

"Generating a pipeline of innovation platforms, flavor directions, and white-space opportunities that have the potential to drive incremental growth across the portfolio."

PART 3 · ONE OR TWO IDEAS, FLESHED OUT

What should we work on next?

MOST CHIPS *The top chips show up here. If the room already agrees, type it straight in.*

OPPORTUNITY 1

Who it's for and when, the flavor and experience, what to change or test in the next sample, and next steps and timing.

EXPLORE LATER

Promising ideas we don't take forward today go here, so they don't disappear.

The scores are this group's first reactions, not proof of what consumers will buy.

WRAPPING UP

Here's what *we decided.*

Does everyone agree? We'll write it up and send it to everyone here within 8 business days.

THERABREATH × THE FLAVOR FACTORY

The Flavor Playbook

What we decided on November 9, 2026

Church & Dwight Oral Care R&D and The Flavor Factory

DRAFT · PRINCETON, NEW JERSEY

WHAT HAPPENS NEXT

Thank you. *Here's what happens next.*

01

Next steps for what we pick

Before we leave today, each of the one or two ideas we pick gets who it's for and when they'd use it, the flavor and experience, what to change or test in the next sample, and next steps and timing, where both teams can agree.

02

The write-up within 8 business days

We'll pull today's scores, reactions, choices and next steps into one document and send it to everyone here.

03

The next round of samples

We'll make the next round in your bases and go through it with you in January 2027.

THERABREATH × THE FLAVOR FACTORY

Thank you.

For spending the morning with us.

FROM JULY TO TODAY

When your team came to Norco in July, we covered the first four. *Today is about growth.*

NOVEMBER

WHAT WE'RE SEEING

Seven trends we think matter *for oral care.*

01 People want milder mouthwash.

02 Warm spices are showing up in fresh flavors.

03 Fruit flavors are growing up.

04 Botanicals are showing up in daily routines.

05 Sweeter, more playful flavors are reaching oral care.

06 How it feels is part of the product.

07 Many people live with dry mouth or changed taste.

FOR THE ROOM

What would a flavor need to do to stay pleasant in a dry mouth, and what could we never claim?

TREND 7 OF 7 · SEEN IN ORAL CARE

Many people live with dry mouth or changed taste.

About 1 in 8 US adults say they currently take a GLP-1 drug.

KFF Health Tracking Poll, fielded October 27 to November 2, 2025

CareQuest Institute advises dental teams to ask about GLP-1 use: dry mouth has been reported, and research on oral effects is still early.

CareQuest Institute for Oral Health, GLP-1s and oral health

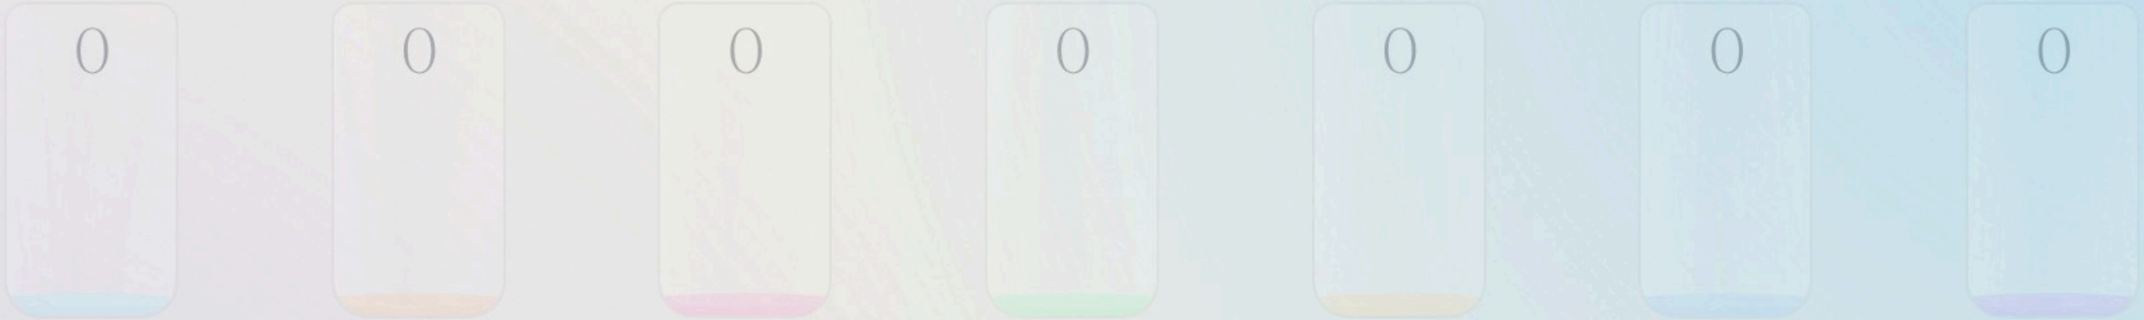

WHAT IT COULD MEAN FOR THERABREATH

A flavor that stays pleasant for people with a dry mouth or changed taste could be worth exploring, without any health claim.

VOTE ON YOUR PHONE · 0 VOTES SO FAR

Which three matter most *for TheraBreath?*

SCAN TO VOTE

01 People want milder mouthwash

02 Warm spices are showing up in fresh flavors

03 Fruit flavors are growing up

04 Botanicals are showing up in daily routines

05 Sweeter, more playful flavors are reaching oral care

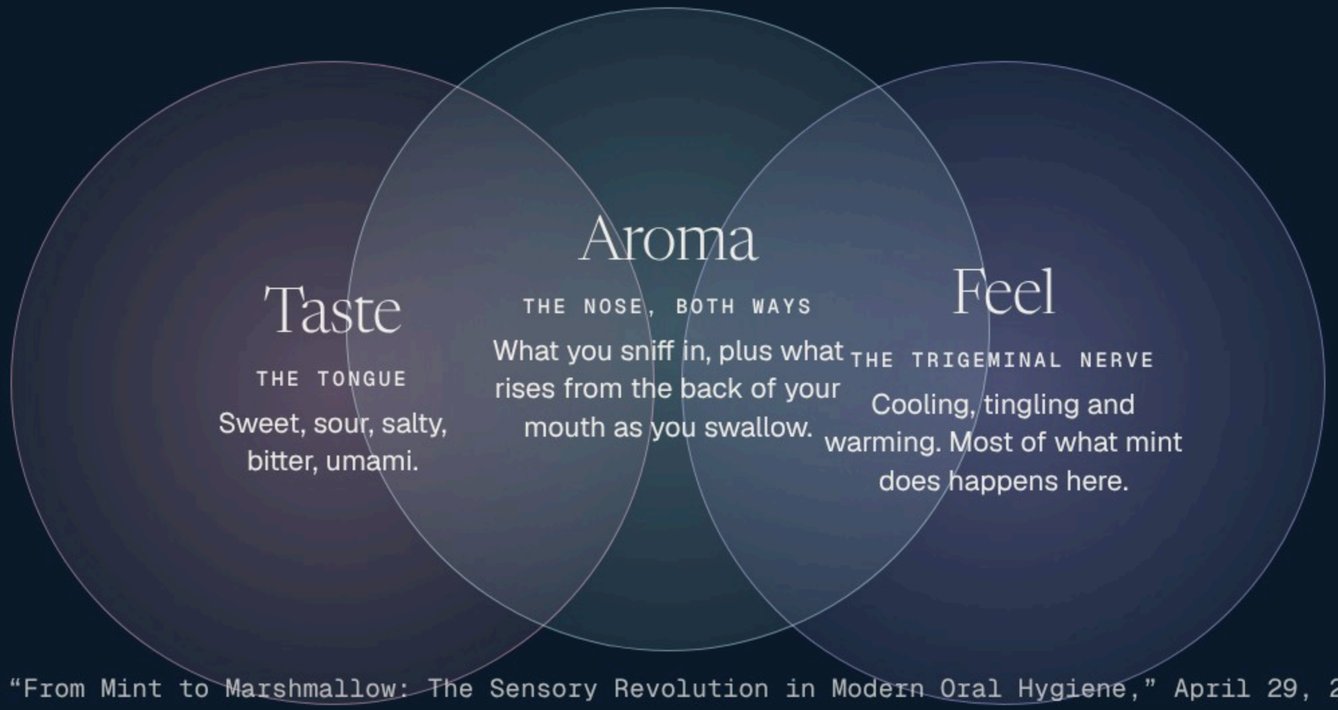

06 How it feels is part of the product

07 Many people live with dry mouth or changed taste

AND *What are you seeing that we missed?*

FLAVOR SCHOOL · WHAT FLAVOR IS

Most of what we call flavor is really smell. *The rest is how it feels.*

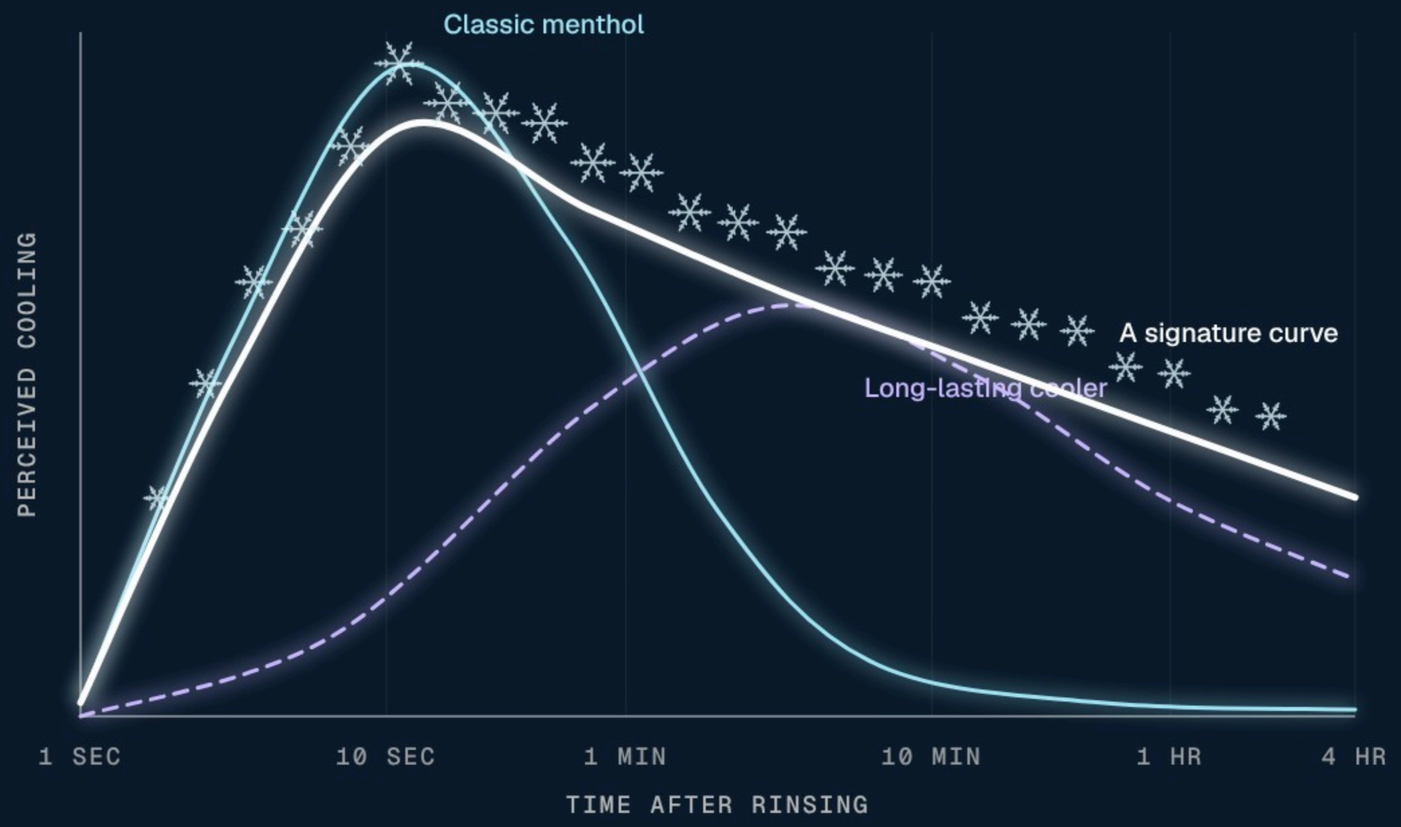

Source: Perfumer & Flavorist, “From Mint to Marshmallow: The Sensory Revolution in Modern Oral Hygiene,” April 29, 2026

FLAVOR SCHOOL · HOW COOLING WORKS

Cooling does two jobs.

There's the hit when you first rinse, and there's how long it lasts. We tune both.

Drawn to explain the idea. These aren't measured curves.

FLAVOR SCHOOL · FLAVOR AND OXYD-8

OXYD-8 is built to be tough on the bacteria behind bad breath, and that makes it tough on flavor too.

01 Controlling pH

02 Dissolving and protecting the flavor

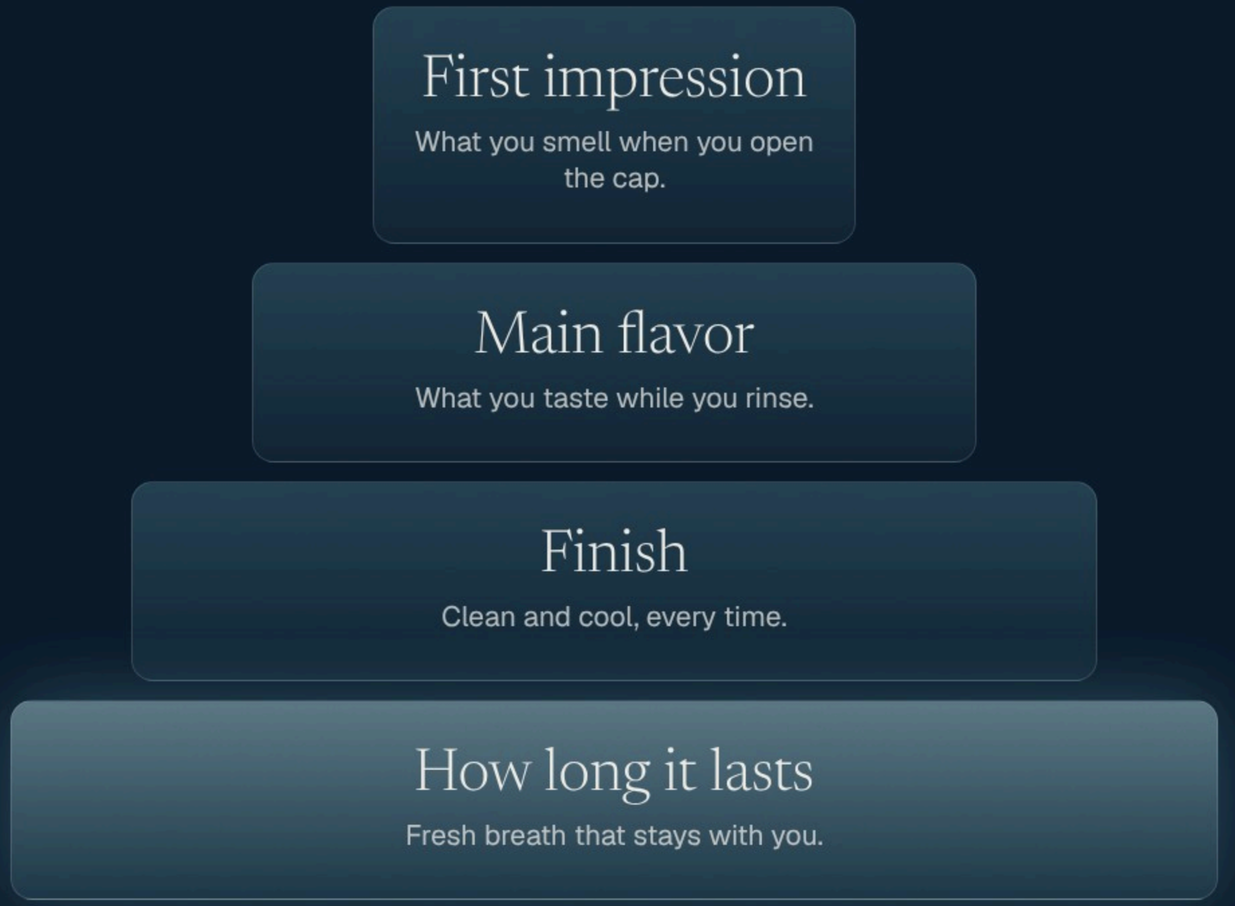

03 Choosing materials that hold up

A flavor only counts if it still tastes right after months on the shelf.

Source: US Patent 6,582,682 (public). Public chemistry only. No TheraBreath or TFF formula details

FLAVOR SCHOOL · HOW IT'S BUILT

A TheraBreath flavor can start anywhere, *but it has to finish clean.*

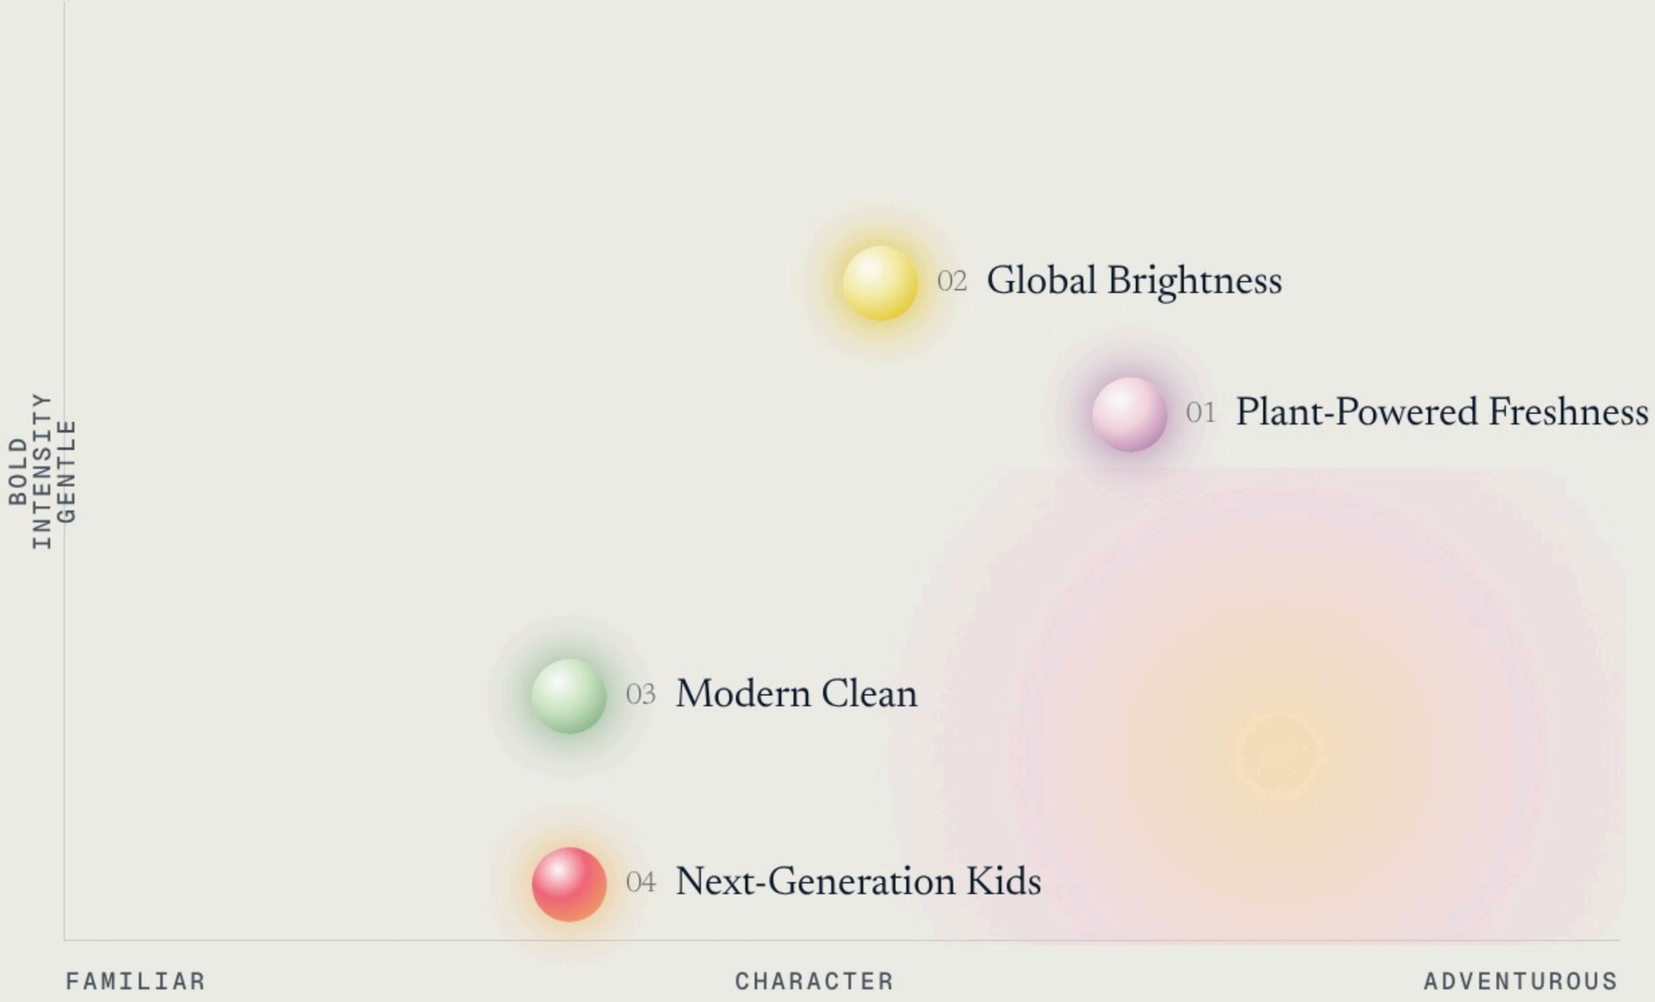

FOUR DIRECTIONS

Where we think *flavor could go.*

Two of these are in today's tasting. For the other two, we just want your opinion.

Our view, not data.

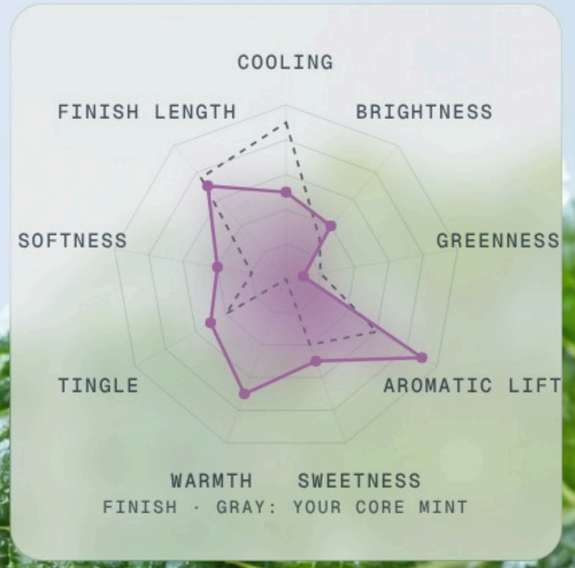

DIRECTION 1 OF 4 · EVERY DAY

Plant-Powered Freshness

In today’s tasting

Citrus, herbs and a touch of floral, always finished with mint.

WHERE IT STANDS

We made two botanical samples for today, both in your Fresh Breath base.

These are still development samples, and we’re testing how well they hold up in the base.

WHAT IT TASTES LIKE

It opens bright with citrus and herbs and finishes on mint.

We’ll tell you which samples these are after the tasting.

WHO IT’S FOR

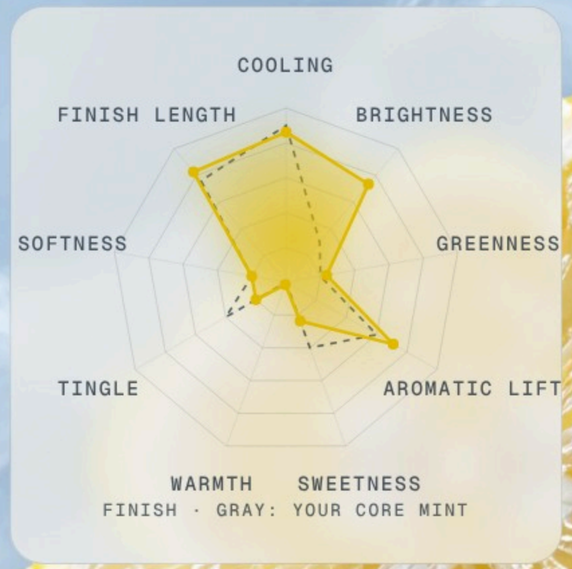

Adults who’d like something besides straight mint.

DIRECTION 2 OF 4 · MORNINGS AND GOING OUT

Global Brightness

For discussion

Citrus people already know, taken somewhere new.

WHERE IT STANDS

This one isn't in today's tasting, but we'd love your read on it.

WHAT IT TASTES LIKE

A burst of citrus, then a cold, clean finish.

WHO IT'S FOR

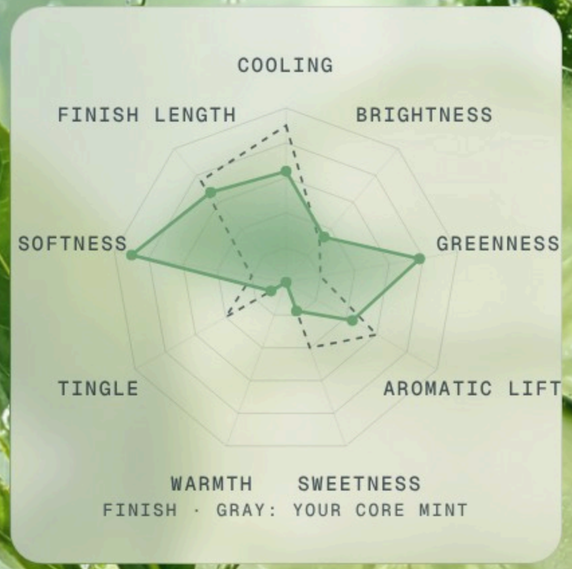

Morning rinsers, people heading out the door, and markets outside the US.

DIRECTION 3 OF 4 · MIDDAY

Modern Clean

For discussion

Green, gentle freshness for people who find mouthwash too strong.

WHERE IT STANDS

It isn’t in today’s tasting, and it would need consumer testing in your base first.

WHAT IT TASTES LIKE

Soft cooling, a few green notes and a calm finish.

WHO IT’S FOR

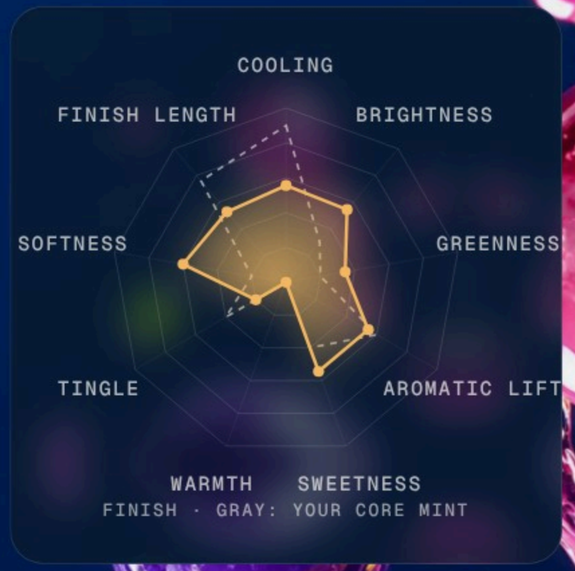

People who skip mouthwash because they find it too harsh.

DIRECTION 4 OF 4 · BRUSHING AND RINSING TIME

Next-Generation Kids

In today’s tasting

Flavors that make kids actually want to rinse.

WHERE IT STANDS

We made two samples for kids today, both in your Kids base.

Both are starting points rather than final picks.

WHAT IT TASTES LIKE

Fruity and fun. We especially want your read on the sweetness and the finish.

We’ll tell you which samples these are after the tasting.

WHO IT’S FOR

Kids and their parents. We haven’t tested it with consumers yet.
