WHO WE ARE · HOW WE WORK

Flavor is science *and imagination.*

SCIENCE *How a flavor survives the bottle*

- Volatile aromatics
- Sensory perception
- Cooling
- Trigeminal sensations
- Taste masking
- Solubility
- Stability
- Oral-care systems

IMAGINATION *Why someone wants it*

- Culture
- Emotion
- Consumer expectation
- Food and beverage trends
- Hospitality
- Beauty
- Wellness
- Travel
- Ritual

YOUR BRIEF, OUR AGENDA

You asked for four things. *Here is how we will answer them by noon.*

01

Identifying emerging flavor, sensory, and consumer trends that could influence the future of oral care.

10:10 TO 10:25
WHAT IS CHANGING

02

Exploring new flavor territories and sensory experiences that can differentiate TheraBreath from competitors and create memorable consumer experiences.

10:25 TO 11:00
WHERE FLAVOR CAN GO

03

Developing innovative flavor concepts that unlock new usage occasions, address new consumer segments, and create opportunities for portfolio expansion.

11:00 TO 11:20
WHAT WE COULD MAKE

04

Generating a pipeline of innovation platforms, flavor directions, and white-space opportunities that have the potential to drive incremental growth across the portfolio.

11:20 TO 11:40
WHAT GOES FIRST, NEXT AND LATER

AND ONE GOAL, IN YOUR WORDS

"...new flavor experiences that both *strengthen our appeal with existing loyal users* and *create opportunities to attract new consumers to the franchise*."

Source: Ross Conroy, Church & Dwight Oral Care R&D, workshop invitation, September 18, 2026

TheraBreath took away the burn.

Now let's give more people a reason to want it.

OBJECTIVE 01 OF 04 · 10:10 TO 10:25

What is changing.

IN ROSS'S WORDS

"Identifying emerging flavor, sensory, and consumer trends that could influence the future of oral care."

01

THE GAP · HOUSEHOLD PENETRATION

86 of every 100 US households have not met TheraBreath yet.

Flavor is how we introduce ourselves.

25.3% share of US mouthwash in Q2 2026, up 4.5 points.

Number 2. Share is the climb; households are the room still to meet.

Source: Church & Dwight Q2 2026 earnings call, July 31, 2026. TheraBreath 14%, mouthwash category 65%

2025 TO 2026

Hismile

Toothpaste as entertainment: collaborations with Lucky Charms, Reese's, KFC and more.

Public press coverage, 2024 to 2026

THE TURN

TheraBreath did not join this race. It started ahead of it: alcohol-free and dye-free from the first bottle, OXYD-8 at the center, and a kids line already on shelf. *The question for today is what keeps it ahead.*

SEVEN SIGNALS SHAPING ORAL CARE

Seven signals. *Which three matter most?*

01 Mild is the new mainstream.

02 Warmth meets freshness.

03 Fruit grows up.

04 Botanicals and rituals.

05 Edible allure.

06 Sensation is the new proof of efficacy.

07 New mouths, new needs.

SIGNAL 7 OF 7

New mouths, new needs.

1 in 8 US adults currently take a GLP-1; users commonly report dry mouth, bad breath and taste changes, though studies have not established that the drugs cause them.

CareQuest Institute, August 2026

More than 25 million Americans live with dry mouth.

Perfumer & Flavorist, "From Mint to Marshmallow," April 29, 2026

SO WHAT FOR THERABREATH

Flavor built for altered taste and comfort is a platform, not a niche.

OBJECTIVE 01 · FOR DISCUSSION

Which three signals matter most *for TheraBreath?*

SEVEN SIGNALS

01 Mild is the new mainstream

02 Warmth meets freshness

03 Fruit grows up

04 Botanicals and rituals

05 Edible allure

06 Sensation is the new proof of efficacy

07 New mouths, new needs

AND *What are you seeing that we have missed?*

OBJECTIVE 02 OF 04 · 10:25 TO 11:00

Where flavor can go.

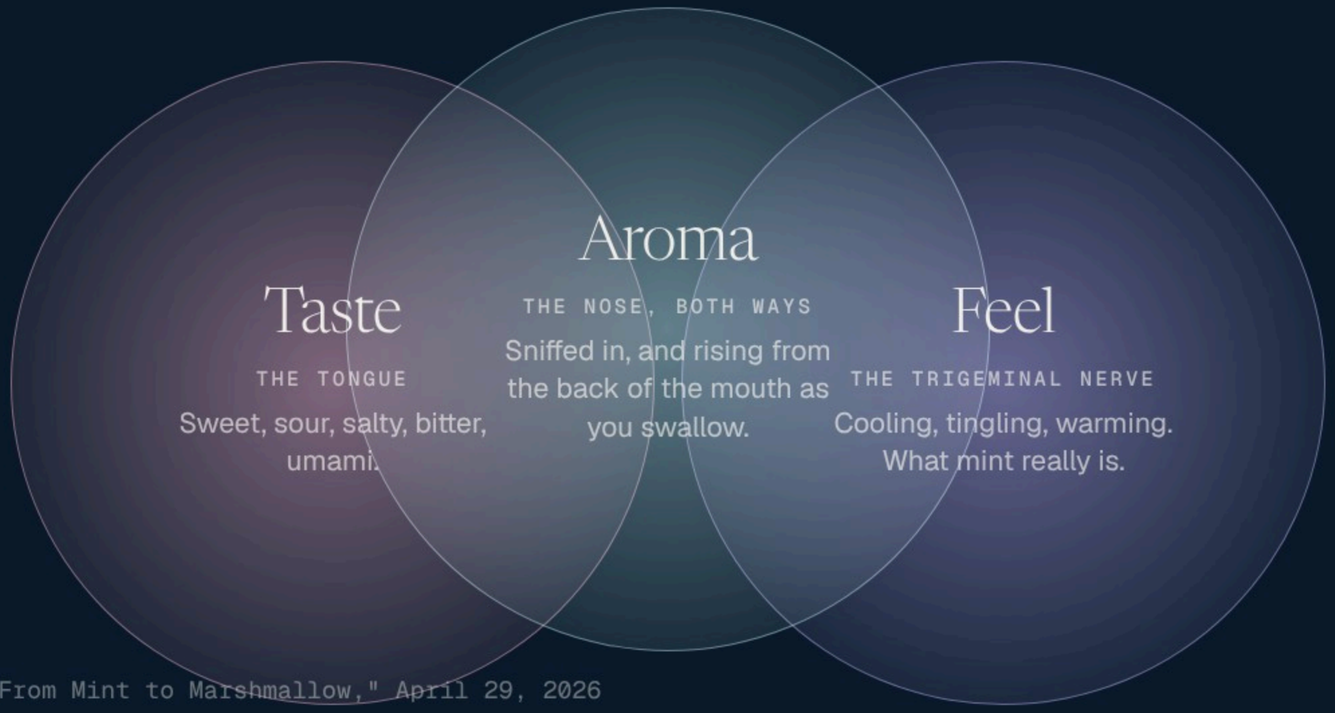

IN ROSS'S WORDS

"Exploring new flavor territories and sensory experiences that can differentiate TheraBreath from competitors and create memorable consumer experiences."

02

FLAVOR SCHOOL · WHAT FLAVOR REALLY IS

Most of what we call flavor is actually smell. *The rest is feeling.*

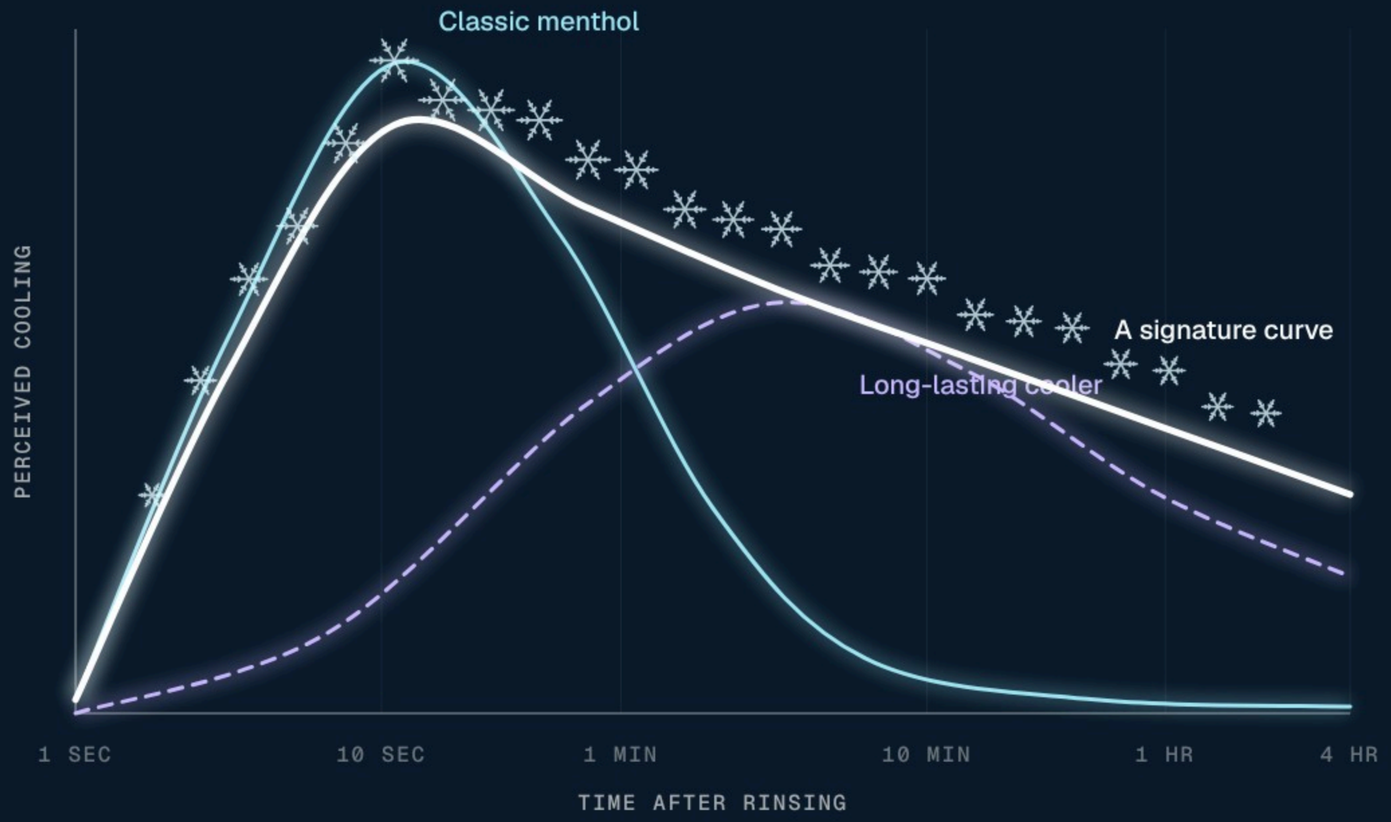

Source: Perfumer & Flavorist, "From Mint to Marshmallow," April 29, 2026

FLAVOR SCHOOL · HOW COOL WORKS

Cooling has two jobs.

The first impression and the last impression. We design both.

Illustrative curves for teaching, not measured data.

FLAVOR SCHOOL · FLAVOR IN AN OXIDIZING WORLD

OXYD-8 is designed to be tough on odor-causing bacteria. That also makes it a demanding home for flavor.

01 pH control

02 Protective solubilization

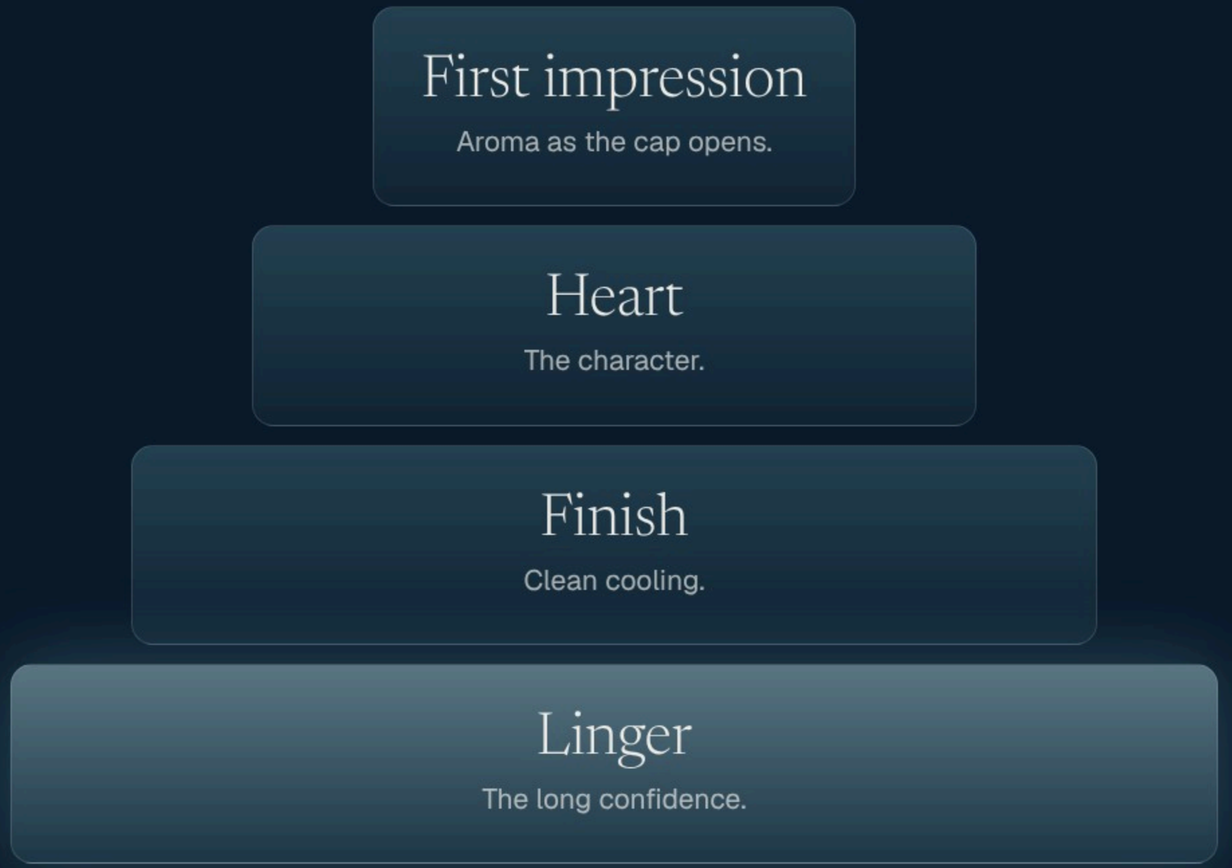

03 Choosing materials that hold up

We don't just make it taste good. We make it survive.

FLAVOR SCHOOL · ANATOMY OF A THERABREATH FLAVOR

However adventurous it starts, *it must finish fresh.*

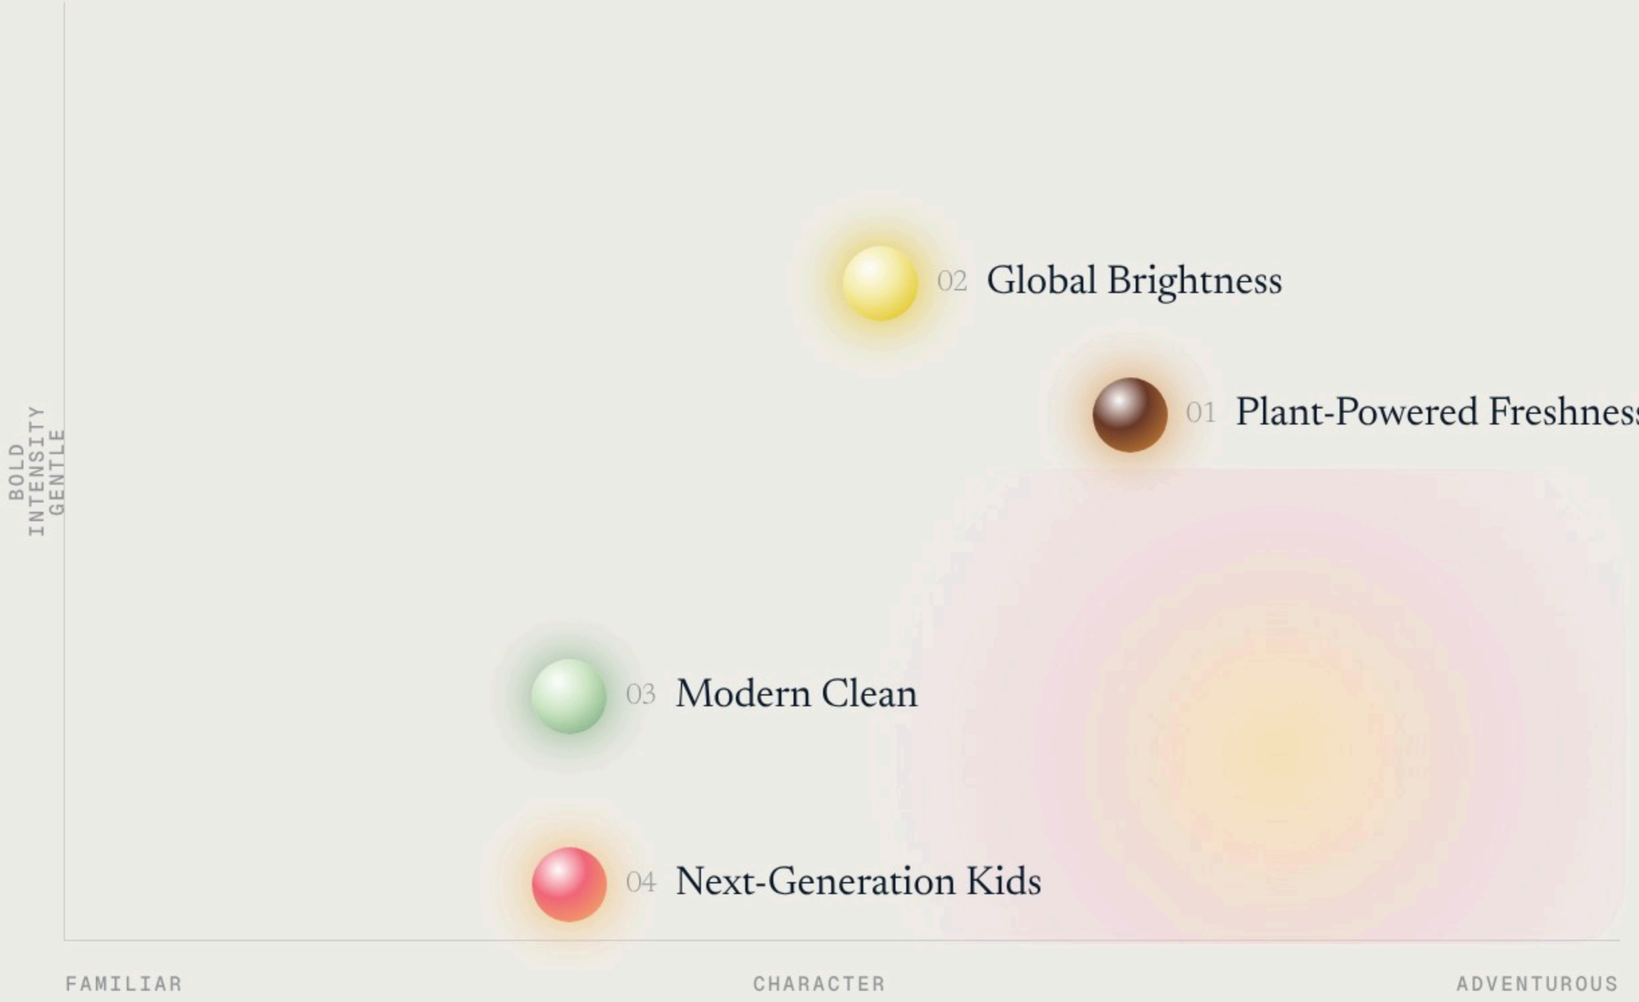

FOUR OPPORTUNITY PLATFORMS

Where flavor *can go next.*

Four questions to explore. Today's samples help us decide where to develop next.

Our perspective, illustrative.

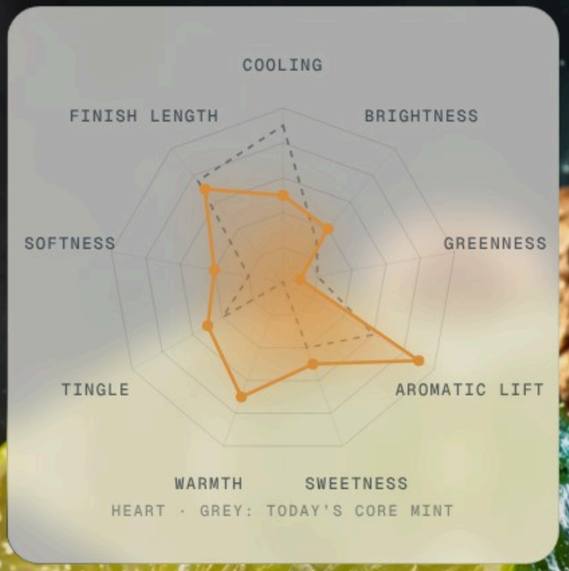

PLATFORM 1 OF 4 · EVERYDAY DISCOVERY

Plant-Powered Freshness

A direction to explore together

Explore botanical freshness through citrus, herbs and florals, with a mint finish.

WHY NOW

Two complementary botanical directions, built for this workshop in the Fresh Breath base and tasted blind today.

THE OPPORTUNITY

Which botanical direction feels right for TheraBreath?

Sample details revealed after tasting.

SENSORY SIGNATURE

Bright citrus, aromatic herbs, a fresh mint finish. Sensory targets to evaluate.

WHO

Adults looking for a new botanical freshness experience.

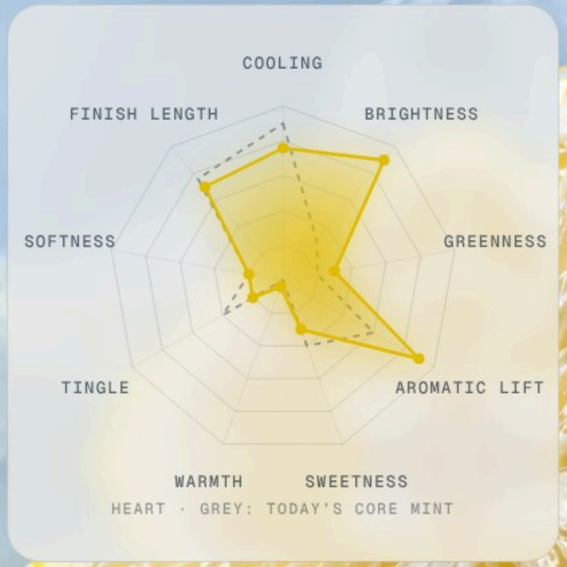

Development concepts: base compatibility and sample readiness are part of what we evaluate together.

PLATFORM 2 OF 4 · WAKE · PRE-SOCIAL

Global Brightness

A direction to explore together

Familiar citrus opens a door to new flavor experiences.

WHY NOW

A proposed direction to discuss alongside the current lab work.

THE OPPORTUNITY

Where can citrus take freshness beyond another mint?

Sample details revealed after tasting.

SENSORY SIGNATURE

A citrus flash, aromatic yuzu, a cold crystalline finish.

WHO

Morning people, pre-social moments, international consumers.

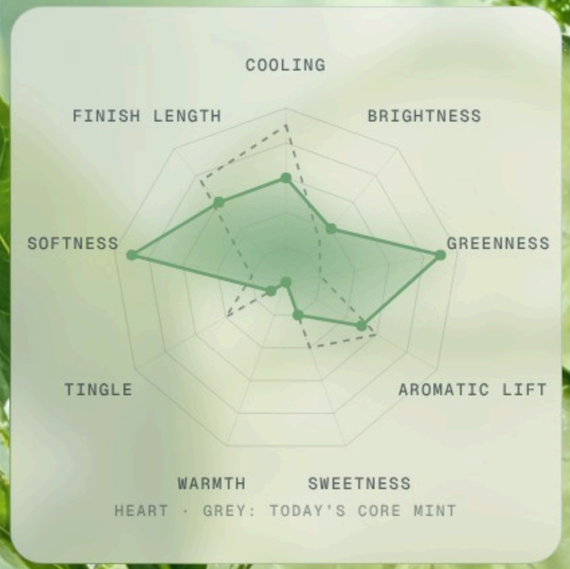

A direction to discuss on screen; not in today's tasting flight.

PLATFORM 3 OF 4 · MIDDAY RESET

Modern Clean

A direction to explore together

Explore green, gentle freshness for people who find mouthwash too intense.

WHY NOW

A proposed sensory direction, to be tested with consumers and in the intended base.

THE OPPORTUNITY

Can gentle feel unmistakably fresh?

Sample details revealed after tasting.

SENSORY SIGNATURE

Soft green cooling, gentle aromatic lift, calm finish.

WHO

Wellness-minded adults; the "mouthwash is too harsh" non-user.

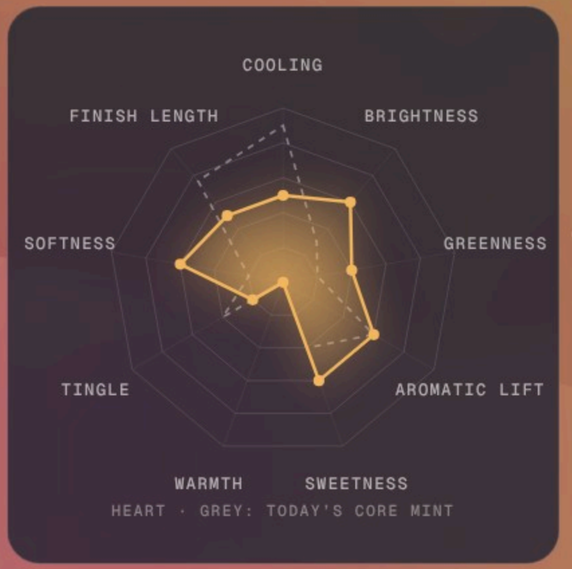

A direction to discuss on screen; not in today's tasting flight.

PLATFORM 4 OF 4 · THE DAILY ROUTINE

Next-Generation Kids

A direction to explore together

Flavor makes the routine: playful discovery that invites curiosity.

WHY NOW

Two new kids rinse directions, built for this workshop in the Kids base and tasted blind today.

THE OPPORTUNITY

Could a recurring mystery flavor make the routine more engaging?

Sample details revealed after tasting.

SENSORY SIGNATURE

A playful fruit blend; evaluate sweetness, finish and age-appropriate appeal.

WHO

Kids and families; consumer appeal remains a hypothesis.

Development concepts: both kids samples are starting points, not selections.

BLIND TASTING · SAMPLES A TO D, MADE IN THE THERABREATH BASES YOU SENT

Taste first. *Names later.*

A	FRESH BREATH BASE	Blossom Mint	Grapefruit, Lavender, Rose, Spearmint, Wintergreen
B	FRESH BREATH BASE	Grove Mint	Spearmint, Peppermint, Wintergreen, Rosemary, Ylang Ylang, Eucalyptus

ON YOUR CARD

Appeal	1 TO 5
Feels like TheraBreath	1 TO 5
Newness	1 TO 5
One word	FOR EACH SAMPLE

Rinse and pause between samples.

Development concepts made for this conversation: not products, claims or commercial formulations. Workshop reactions, not consumer validation.

OBJECTIVE 02 · FOR DISCUSSION

Which territory feels most like TheraBreath, *and which stretches it furthest?*

DIRECTIONS FOR A NEXT ROUND

- SAMPLE A — Blossom Mint
- SAMPLE B — Grove Mint
- SAMPLE C — Berry Blast
- SAMPLE D — Mystery Flavor
- PLATFORM — Global Brightness
- PLATFORM — Modern Clean

AND *What would set TheraBreath apart from the flavors competitors are adding?*

OBJECTIVE 03 OF 04 · 11:00 TO 11:20

What we could make.

IN ROSS'S WORDS

"Developing innovative flavor concepts that unlock new usage occasions, address new consumer segments, and create opportunities for portfolio expansion."

OBJECTIVE 04 OF 04 · 11:20 TO 11:40

What goes first, next and later.

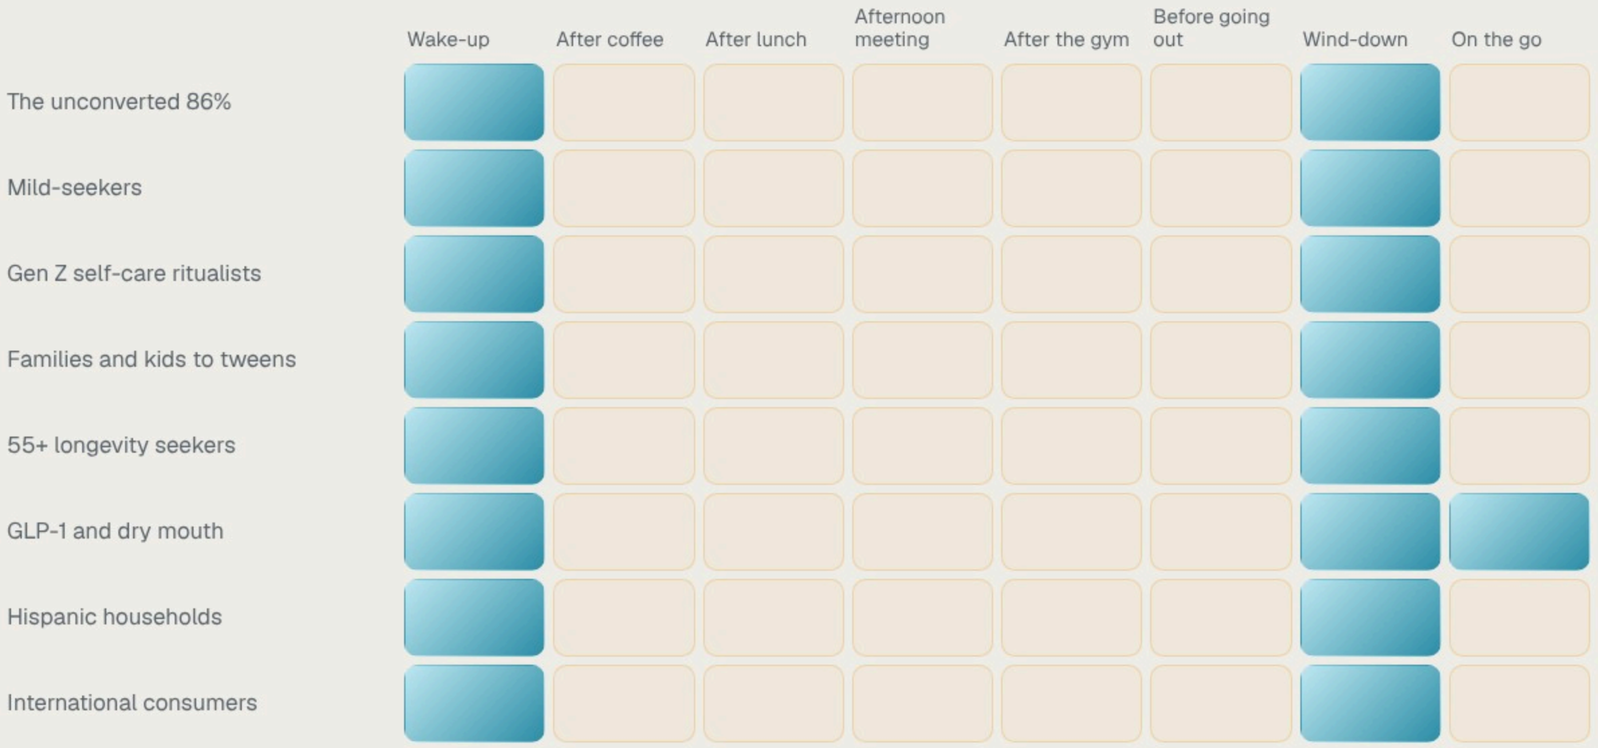

IN ROSS'S WORDS

"Generating a pipeline of innovation platforms, flavor directions, and white-space opportunities that have the potential to drive incremental growth across the portfolio."

04

OBJECTIVE 04 · WHITE SPACE · MOMENTS OF THE DAY BY CONSUMER · OUR READ, TO CHALLENGE

The day happens *between the sinks.*

- Where TheraBreath is today: the sink, morning and night, and the dry mouth lozenge on the go.
- Your pre-brief answers land here: the consumer to win, and the moment that is missing.
- White space: the day between the sinks. No TheraBreath flavor built for it yet.
- Where today's concepts land.

Our read of where TheraBreath is present today, to challenge: the morning and bedtime rinse, and the dry mouth lozenge on the go.

OBJECTIVE 04 · THE PIPELINE

What goes first? *And what has to be true for it to work?*
