Run sheet

THE FUTURE OF FRESHNESS · MONDAY, NOVEMBER 9, 2026 · DARWIN ROOM · FOR THE FLAVOR FACTORY TEAM · NOT FOR HANDING OUT

FROM 9:30: SET UP THE ROOM

- [ ] Connect the laptop to the TV as an extended display, not a mirror. Open the team link, then Present on the day (/host), drag that window to the TV and press F for full screen. Then press P: the presenter view opens in its own window. Keep it on the laptop's screen. It has the talking points, the time in Princeton against this sheet, and buttons that move the presentation. Only this laptop should open the presentation on the day, because it moves everyone's phones. (Church & Dwight's password can't open it.) If the TV will only mirror, skip the presenter view and use this sheet.
- [ ] Phones: people join by scanning the code on the first screen. Phones use their own data, so the room Wi-Fi only matters for the laptop. Ross offered to help us get on the network. If it fails, present from the backup PDF and the film file on the laptop, without the voting.
- [ ] Film backup: the day before, download THE FLAVOR RACE from the team page (flavor-race.mp4: 2:24, 2560 × 1440, with sound) and keep it on the laptop's desktop. Open it once to check it plays. If the site won't play it on the day, play the file from there, full screen, with the sound up. The opening film isn't shown in the room: we open with our own welcome.
- [ ] Sound and picture check, before anyone arrives and on the rehearsal session so nobody's phone moves: open /host?code=REHEARSE on the TV, press F for full screen, then Go to THE FLAVOR RACE (slide 14) in the presenter view, or open /host?code=REHEARSE#14. Check it fills the screen, play ten seconds through the speakers and set the volume, and press R to check it starts again. Then close that window and open Present on the day. Keep the film off the TV once people start arriving.
- [ ] Rehearse on /host?code=REHEARSE (the team page links to it), never on /host itself, so rehearsal votes stay out of the live session. Leave the live session FOF1109 alone the night before: it holds everyone's pre-brief answers, and the team page shows how many are in.
- [ ] Samples: A and B in the Kids base and C and D in the Fresh Breath base, poured blind into coded cups. Set out water to rinse, cups to spit into and napkins.
- [ ] If we're running late, see If we run behind below. The presenter view shows how far over the current part is and whether the short version is on.
- [ ] Bring a few paper scorecards and pens for anyone who'd rather not use a phone (print them from /scorecard). On the vote slides, the presenter view has a button to add a hand vote for each option, and one to take it back. On the tasting, type each paper card in with Add a paper card. A card typed in by mistake can be removed.

AT A GLANCE: OWNERS, KIT AND WHAT EACH BLOCK SHOULD LEAVE US WITH

TIME	BLOCK	OWNER	TECHNOLOGY AND MATERIALS	OUTPUT
10:00 to 10:10	Welcome, introductions and what we want to accomplish		Laptop on the TV as an extended display, the presenter view (P), the QR code on the arrival screen, Wi-Fi for the laptop.	Phones joined, names around the table, and the pre-brief answers on screen if any came in.
10:10 to 10:22	Market highlights and a quick overview of the four directions		The presentation only. The seven trends and the trend vote are in the backup if someone wants to dig deeper.	The room's read on the three trend conversations, and on the four directions before anything is tasted.
10:22 to 10:25	A short film before the tasting		Speakers loud enough for THE FLAVOR RACE (checked before anyone arrives), the presenter view for its controls and the film saved on the laptop as a backup.	THE FLAVOR RACE (10:22 to 10:25, or skipped if we're late), then the samples come out.
10:25 to 11:00	A blind tasting of all four samples, scoring and the reveal		Four samples in coded cups (A and B in the Kids base, C and D in the Fresh Breath base), water, spit cups, napkins, paper scorecards and pens, phones.	The three scores for all four samples from everyone, the optional answers where people gave them, the fruit guesses, and the names revealed.
11:00	*Suggested transition: collect the paper cards as people finish, even if there isn't time to type them in yet.*			
11:00 to 11:20	Discussing your reactions and choosing the most promising opportunities		Phones for the chips; hand chips in the presenter view for anyone without one. The Keep and Change boxes on the TV.	What the room would keep and change for each sample, and the chips (or the agreement) on what gets a next round.
11:20 to 11:40	Fleshing out one or two ideas and discussing next steps		What we work on next on the TV, or the presenter view.	One or two ideas, each with who it's for and when, the flavor and experience, what to test in the next sample, and next steps and timing where both teams agree, plus an explore-later list.
11:40 to 11:50	Reading back the plan and making sure everyone agrees		The presenter view for the read-back, and the results page ready to save as a PDF.	The plan read back and agreed.
11:50 to 12:00	Time for discussion, questions or anything that runs long		The backup slides (Go to, in the presenter view).	Questions answered, and the results page saved as a PDF before the laptop closes.

THE TASTING TABLE (CHECK BEFORE 10:25)

- [ ] Cups labeled A to D, nothing else on the label: no names, no fruits.
- [ ] Backup samples of each, in case of a spill or a second pour.
- [ ] Tasting cups, spit cups and napkins at every seat.
- [ ] Water to rinse between samples.
- [ ] Paper scorecards and pens, and the QR code on screen for phones. Collect every card at the end, even the ones there wasn't time to type in.
- [ ] Reveal: the names flip on screen at the second build of the tasting, once everyone has scored all four. Reveal cards only if you're bringing printed ones.

THE RUN OF SHOW

TIME	BLOCK AND SCENES	WHAT HAPPENS
10:00 to 10:10	Welcome, introductions and what we want to accomplish Arrival, Title, Who we are, What we want to accomplish, Your pre-brief answers (only if answers came in), Why we're here (optional)	As people sit down, the arrival screen shows the QR code and counts the phones as they join. Thank Ross for having us, introduce the four of us, and go round the table for names. Then set up the morning around three things, built on Ross's four objectives: what's changing, what the samples tell us, and what we should work on next. Show the pre-brief answers if any came in.

TIME	BLOCK AND SCENES	WHAT HAPPENS
10:10 to 10:22	Market highlights and a quick overview of the four directions OBJECTIVE 01 Part 1, 86 out of 100 households, The portfolio today (optional), What competitors are launching, Three conversations about trends, Four directions	Market highlights first: the household gap, the portfolio and what competitors are launching. Then three short conversations instead of seven trend slides and a vote: the feel of freshness, botanicals and herbs, and fruit and playful flavors, one click each with its sources and one question. Finish with all four directions on one slide: two are in the tasting, and Global Brightness and Modern Clean are ideas for discussion with no samples today. No sample letters or names next to the directions.
10:22 to 10:25	A short film before the tasting TEAM ONLY: NOT ON THE ATTENDEE AGENDA Part 2, THE FLAVOR RACE	Part 2 opens in a breath, then lights down: THE FLAVOR RACE, a surprise for the room, so don't announce it. 2:24 of film. It starts only when you move onto it, and you can pause, restart or skip it from the presenter view or the keys. It ends on four glasses on a tray: lights up and bring out the samples. Its flavor montage shows the flight's own fruits, the Mystery Flavor's among them, so treat it as a hint. If we're running late, skip it: nothing is decided on it. It isn't on the attendee agenda, which goes straight from 10:10 to 10:25.
10:25 to 11:00	A blind tasting of all four samples, scoring and the reveal OBJECTIVE 02 What to taste for, The blind tasting	While the samples are poured, a short word on flavor, cooling, the finish and the base (the full Flavor School slides are in the backup, for questions). Then A and B in the Kids base and C and D in the Fresh Breath base. For each sample, everyone completes the three scores, flavor appeal, fit with TheraBreath and newness, on their phone or the paper scorecard; the other questions are optional. B is the Mystery Flavor, so anyone who wants to can note the fruits they get. Everyone scores all four before the names go up. Type the paper cards into the presenter view as they're handed in, or collect them to type in later. 35 minutes is the target: the size of the group and the discussion set the pace.
11:00 to 11:20	Discussing your reactions and choosing the most promising opportunities Where each sample landed, What stood out?, Vote: what gets a next round	Show where each sample landed, from their scores. Then ask: What stood out? What would you keep, and what would you change? Type what they say under Keep and Change for each sample. Then the one vote of the morning: five chips each across the four samples and the two directions we didn't taste. If the room has already reached a clear agreement in the discussion, skip the vote and capture that instead.
11:20 to 11:40	Fleshing out one or two ideas and discussing next steps OBJECTIVES 03 AND 04 Part 3, What we work on next	Concept building and the roadmap in one. Take the one or two strongest opportunities and, for each, capture: who might it be for, and when might they use it? What should the flavor and experience be like? What needs to change or be tested in the next sample? What are the next steps and timing, if both teams can agree? Type them on the TV or in the presenter view. Anything else promising goes on the explore-later list so it doesn't disappear. Treat the scores as the group's reactions, not proof of what consumers will buy.
11:40 to 11:50	Reading back the plan and making sure everyone agrees What we decided, What happens next	Read the plan back, one chapter at a time: the tasting with what they'd keep and change, the chips, the one or two ideas with their next steps and timing, and the explore-later list. Make sure everyone agrees. Then the three next steps.
11:50 to 12:00	Time for discussion, questions or anything that runs long Thank you	Ten minutes for more discussion, questions or anything that ran long. The backup slides are ready if Ross's team wants more on a topic. Then lunch, hosted by Church & Dwight.

SLIDE BY SLIDE

Planned minutes, so each block ends on time; the presenter view shows each slide's planned window. Numbers match the presenter view's Go to list. Slides marked optional are the ones S skips. Your pre-brief answers (5) shows only once someone has answered; if nobody has, its three minutes are

spare. The 35 minutes for the tasting are a target: the size of the group and the discussion set the pace, and the buffer at 11:50 is there to absorb it.

PLANNED	#	SLIDE	ON SCREEN, CLICK BY CLICK	ASK THE ROOM, AND THE PHONES
10:00 TO 10:10 · WELCOME, INTRODUCTIONS AND WHAT WE WANT TO ACCOMPLISH				
Before 10:00	1	Arrival	The QR code, the number of phones joined and their first names.	*Phones: Scan the code and type a first name.*
10:00 1 min	2	The Future of Freshness		Welcome, thank Ross, and set up the two hours: what's changing, what the samples tell us, what we work on next.
10:01 3 min	3	Who we are	Who we are, what we test in the lab, and what we bring in from outside oral care.	A quick round of names around the table.
10:04 2 min	4	What we want to accomplish	"Three things this morning, built around your four objectives." 1 Part 1, What's changing, 10:10 to 10:22: objective 01. 2 Part 2, What the samples tell us, 10:22 to 11:20: objective 02. 3 Part 3, What we work on next, 11:20 to 11:50: objectives 03 and 04. 4 Ross's goal, in his words.	
10:06 3 min	5	Your pre-brief answers IF ANSWERED	Who the next flavor should be for, with any "Someone else" answers. 1 The moment TheraBreath is missing, and the group's freshness profile. 2 What would feel off-brand, without names.	What makes each off-brand answer feel wrong for the brand?
10:09 1 min	6	Why we're here OPTIONAL	"TheraBreath took the burn out of mouthwash." 1 "The next job is giving more people a reason to want it."	
10:10 TO 10:22 · MARKET HIGHLIGHTS AND A QUICK OVERVIEW OF THE FOUR DIRECTIONS · OBJECTIVE 01				
10:10 a breath	7	What's changing	Part 1 of 3, 10:10 to 10:22: objective 01 in Ross's words.	
10:10 2 min	8	86 out of 100 households	Two glasses fill: 65 for mouthwash, 14 for TheraBreath (Church & Dwight's Q3 call), with the record 26.8% share. 1 "86 out of 100 households don't buy TheraBreath yet," and "The other 86." 2 "Flavor could give more of them a reason to try it."	Of the 86 households, 35 don't buy mouthwash at all. Which group is a new flavor for?
10:12 1 min	9	The portfolio today OPTIONAL	21 of 25 flavors are mint, across six formats. 1 "There's a lot of room around mint."	
10:13 2 min	10	What competitors are launching	"Your competitors are launching flavors, mostly as limited editions." 1 Listerine Watermelon Mint, July 2025. 2 Listerine Citrus Mint, March 2026. 3 TheraBreath Eucalyptus Mint, March 2026. 4 Listerine's range of intensities, June 2026. 5 Hismile tie-ins, 2025 to 2026. 6 Where TheraBreath stands.	TheraBreath already has what they're chasing. What keeps it ahead?
10:15 5 min	11	Three conversations about trends	Seven trends, three conversations: the list. 1 The feel of freshness: milder mouthwash, how it feels, dry mouth and changed taste. 2 Botanicals and herbs: botanicals in daily routines, warm spices in fresh flavors. 3 Fruit and playful flavors: fruit growing up, sweeter and more playful flavors.	One question each: what should TheraBreath feel like in the first ten seconds, and after a minute? Which moment of the day could a botanical own? Where is the line between fun and too sweet?

PLANNED	#	SLIDE	ON SCREEN, CLICK BY CLICK	ASK THE ROOM, AND THE PHONES
10:20 2 min	12	Four directions	The four directions on one slide: two in the tasting (with their bases), two for discussion with no samples today. 1 “Which direction feels most like TheraBreath, and which one stretches it the most?”	
10:22 TO 10:25 · A SHORT FILM BEFORE THE TASTING				
10:22 a breath	13	What the samples tell us	Part 2 of 3, 10:22 to 11:20: objective 02 in Ross’s words. A breath, then lights down.	
10:22 3 min	14	THE FLAVOR RACE	THE FLAVOR RACE, 2:24, lights down and sound up. Don’t announce it. It ends on four glasses on a tray: lights up and bring out the samples.	Nothing: let it play. Its montage shows the flight’s fruits, so it doubles as a hint for the Mystery Flavor. *Phones: Phones show “Phones down for a couple of minutes.”*
10:25 TO 11:00 · A BLIND TASTING OF ALL FOUR SAMPLES, SCORING AND THE REVEAL · OBJECTIVE 02				
10:25 3 min	15	What to taste for	Flavor: mostly smell, plus how it feels. 1 Cooling: the first hit, and how long it lasts. 2 The finish: it has to finish clean. 3 The base: OXYD-8 is tough on flavor, so everything is made in your bases.	While the samples are poured. Questions on the chemistry? The Flavor School slides are in the backup.
10:28 32 min	16	The blind tasting	Four coded samples and how many have scored. A and B first, then C and D, with water between. 1 Their one-word answers and fruit guesses. 2 The names, after everyone has scored all four. B shows its name only.	*Phones: For each sample: flavor appeal, fit with TheraBreath and newness, 1 to 5. The rest is optional and folded away: who would buy it, which direction, whether to develop it, one word, and the Mystery Flavor’s fruits. Paper cards typed into the presenter view, now or later.*
11:00 TO 11:20 · DISCUSSING YOUR REACTIONS AND CHOOSING THE MOST PROMISING OPPORTUNITIES				
11:00 3 min	17	Where each sample landed	Each sample placed by fit with TheraBreath (across) and newness (up), sized by appeal. 1 The names on the bubbles, and “first reactions, not consumer research.”	Top right is what Ross asked for: both at once.
11:03 10 min	18	What stood out?	The four samples with their names and averages, each with Keep and Change boxes to type into.	What stood out? What would you keep, and what would you change?
11:13 7 min	19	Vote: what gets a next round	The vote: four samples and two untasted directions. 1 The top three.	*Phones: Five chips each, stacking allowed. Hand chips in the presenter view. Skip it if the room already agrees.*
11:20 TO 11:40 · FLESHING OUT ONE OR TWO IDEAS AND DISCUSSING NEXT STEPS · OBJECTIVES 03 AND 04				
11:20 a breath	20	What we work on next	Part 3 of 3, 11:20 to 11:50: objectives 03 and 04 in Ross’s words.	
11:20 20 min	21	What we work on next	The top chips in a tray, up to two opportunity cards, and the explore-later list.	For each: Who might it be for, and when might they use it? What should the flavor and experience be like? What needs to change or be tested in the next sample? What are the next steps and timing, if both teams can agree?
11:40 TO 11:50 · READING BACK THE PLAN AND MAKING SURE EVERYONE AGREES				
11:40 8 min	22	What we decided	The Playbook assembles from the morning. 1 Chapter 1, the tasting, with what they’d keep and change. 2 Chapter 2, what gets a next round. 3 Chapter 3, the one or two ideas, with next steps and timing. 4 Chapter 4, the explore-later list. 5 The cover. The write-up comes within 8 business days.	Does everyone agree?

PLANNED	#	SLIDE	ON SCREEN, CLICK BY CLICK	ASK THE ROOM, AND THE PHONES
11:48 2 min	23	What happens next	"Thank you. Here's what happens next." 1 Next steps for what we pick. 2 The write-up within 8 business days. 3 The next round of samples, in January 2027.	
11:50 TO 12:00 · TIME FOR DISCUSSION, QUESTIONS OR ANYTHING THAT RUNS LONG				
11:50 10 min	24	Thank you	The thank-you card.	Ten minutes for questions, more discussion or anything that ran long. Then lunch, hosted by Church & Dwight.

BACKUP SLIDES

After the thank-you card, out of the main flow: for questions, or if Ross's team wants more time on a topic. Open one from the presenter view's Go to list; Return (or Escape on the TV) comes back to where the main flow left off. The arrows move between backup slides while one is up.

GROUP	#	SLIDE	ON SCREEN, CLICK BY CLICK	ASK THE ROOM, AND THE PHONES
Welcome	25	From July to today	The four July themes. 1 Growth, November, lights up.	
Trends	26	Seven trends	The seven trends as a list. Clicks 1 to 7: one trend each, with its evidence and where it comes from, what it could mean, and a question for the room.	Which one surprised you most?
Trends	27	Vote: the three trends that matter most	The vote: seven bars fill as phones vote. 1 The top three. 2 "What are you seeing that we missed?"	*Phones: Pick three trends. Hand votes in the presenter view for anyone without a phone.*
Flavor School	28	What flavor is	"Most of what we call flavor is really smell. The rest is how it feels." 1 Taste: the tongue. 2 Aroma: the nose, both ways. 3 Feel: the trigeminal nerve.	
Flavor School	29	How cooling works	Classic menthol's curve (drawn to explain, not measured). 1 A long-lasting cooler. 2 A signature curve. 3 "We tune both."	
Flavor School	30	Flavor and OXYD-8	OXYD-8 is tough on bacteria, and on flavor. 1 Controlling pH. 2 Dissolving and protecting the flavor. 3 Choosing materials that hold up.	
Flavor School	31	How a TheraBreath flavor is built	"It has to finish clean." 1 First impression. 2 Main flavor. 3 Finish. 4 How long it lasts.	
Directions	32	The four directions on a map	The map: familiar to adventurous, gentle to bold. Our view, not data. 1 The four directions. 2 "Two of these are in today's tasting."	
Directions	33	Plant-Powered Freshness	Plant-Powered Freshness: its flavor arc and profile. 1 Where it stands, what it tastes like, who it's for.	
Directions	34	Global Brightness	Global Brightness: its flavor arc and profile. 1 Where it stands, what it tastes like, who it's for.	Is there a citrus that could sit comfortably next to your mints?
Directions	35	Modern Clean	Modern Clean: its flavor arc and profile. 1 Where it stands, what it tastes like, who it's for.	Can a gentle flavor still feel fresh enough?

GROUP	#	SLIDE	ON SCREEN, CLICK BY CLICK	ASK THE ROOM, AND THE PHONES
Directions	36	Next-Generation Kids	Next-Generation Kids: its flavor arc and profile. 1 Where it stands, what it tastes like, who it's for.	Would a mystery flavor get kids more interested in rinsing?
Activities	37	Concept cards	Three concept cards to type into: where it starts, who it's for, when, role in the range, format, what it grows.	
Activities	38	Vote: which ideas to develop	The vote: the concepts and the four samples. 1 The top three.	*Phones: Three dots each, stacking allowed.*
Activities	39	Where TheraBreath fits in a day	A day from wake-up to wind-down, plus on the go, with a row per idea (or per sample and direction). 1 Where TheraBreath is today: rinse, and lozenges, gum and sachets on the go. 2 The moment the pre-briefs say is missing. 3 Everything still open. Click a cell to mark where an idea fits.	
Activities	40	Now, Next, Later	Now, Next, Explore later, with the top votes in a tray above. Click one to start its line under Now.	The longer roadmap, if Ross's team wants it: the same rows as What we work on next, with owners and the base.

IF WE RUN BEHIND

1. A few minutes behind: press S. It skips the optional slides (Why we're here and The portfolio today), and the presenter view shows the short version is on.
2. Further behind: skip THE FLAVOR RACE (the right arrow or] on it goes straight on, and the presenter view has a button on the slide before it), take the trend conversations as headlines only, and skip the chips if the room already agrees.
3. The tasting runs long: let it. The ten minutes of buffer at 11:50 are there for it. Flesh out one idea instead of two.
4. Out of time: read back the one idea with its next steps, then End goes straight to the thank-you card.
5. Never cut: the blind tasting, What stood out, and the next steps for whatever we pick.

IF THE ROOM NEEDS A STARTING POINT: TWO EXAMPLE IDEAS

For What we work on next. Offer one only if the room is stuck, and let them change it. The assumptions are ours, not facts.

A calmer last rinse of the day

FOR	Loyal TheraBreath users
WHEN	Wind-down, the last rinse before bed
FLAVOR DIRECTION	A softer botanical mint, in the Fresh Breath base, next to what Overnight Chamomile Mint already does
HOW IT FEELS	Gentle cooling that fades rather than lingers, no sting, a calm aromatic finish
WHAT WE'D TEST	Does softer cooling still read as clean to a loyal user? Do the botanical notes hold up in the base over time?

- *Assumption: loyal users want a different feel at night than in the morning.*
- *Assumption: the botanical notes stay stable in the base. That needs a bench check.*

A guessing game at the sink

FOR	Families with kids and tweens
WHEN	The evening routine with the kids
FLAVOR DIRECTION	A fruit flavor sold as a mystery, in the Kids base, in the spirit of the Mystery Flavor sample
HOW IT FEELS	A fruit-forward start, mild cooling, a clean finish
WHAT WE'D TEST	Do kids enjoy guessing more than a named fruit? Do parents still see it as a real oral care product? How much cooling do kids accept?

- *Assumption: the guessing makes kids want to rinse.*
- *Assumption: a mystery name works for parents in store. Both need testing with families.*

AFTER THE MORNING

- [ ] Before you close the laptop, open /host?results=1 and print it to PDF: the scores, what the room would keep and change, the chips, the one or two ideas with their next steps, and the explore-later list. The Playbook write-up (/host/writeup) fills in from the same session.
- [ ] Collect every paper scorecard. Any card not typed in yet can go in afterwards from the presenter view (/host/presenter?code=FOF1109), and the write-up picks it up. Keep the cards for their keep-or-change notes.
- [ ] Next steps for what we pick: Before we leave today, each of the one or two ideas we pick gets who it's for and when they'd use it, the flavor and experience, what to change or test in the next sample, and next steps and timing, where both teams can agree.
- [ ] The write-up within 8 business days: We'll pull today's scores, reactions, choices and next steps into one document and send it to everyone here.
- [ ] The next round of samples: We'll make the next round in your bases and go through it with you in January 2027.

BEFORE NOVEMBER 9: STILL TO CONFIRM

- [ ] The timing, with Ross's team, before this version goes out: it starts the tasting at 10:25, and the pre-brief already shared shows the old agenda.
- [ ] The Flavor School wording, with Ryan.
- [ ] The bases: Berry Blast and the Mystery Flavor in the Kids base, Blossom Mint and Grove Mint in the Fresh Breath base.
- [ ] The dates on What happens next, including the January 2027 review.
- [ ] A video call with Ross before the day. He asked to connect once or twice ahead of time.
- [ ] Whether to tell the room what's in the Mystery Flavor once the names go up. The presentation, the phones and the write-up show its name but not its contents, so the room can keep guessing.
- [ ] That the samples were made in the unflavored bases Church & Dwight sent, as the front door says.

Confidential. Keys in the presentation: right arrow, space or click to go on (clicks don't move on while there are boxes to type in); left arrow to go back;] for the next part and [for the previous one; S to skip the optional slides; Home for the start; End for the thank-you card; Escape to come back from a backup slide; F for full screen; P for the presenter view; N for the talking points on the TV itself; B to blank the screen. On THE FLAVOR RACE, space or K pauses and plays and R starts it again. The same keys work in the presenter view. If the page reloads, it picks up where the session left off.
