FROM ROSS'S INVITATION

We've built the morning *around your four objectives.*

01

Identifying emerging flavor, sensory, and consumer trends that could influence the future of oral care.

10:10 TO 10:25
WHAT'S CHANGING

02

Exploring new flavor territories and sensory experiences that can differentiate TheraBreath from competitors and create memorable consumer experiences.

10:25 TO 11:00
WHERE FLAVOR COULD GO

03

Developing innovative flavor concepts that unlock new usage occasions, address new consumer segments, and create opportunities for portfolio expansion.

11:00 TO 11:20
WHAT WE COULD MAKE

04

Generating a pipeline of innovation platforms, flavor directions, and white-space opportunities that have the potential to drive incremental growth across the portfolio.

11:20 TO 11:40
WHAT TO DO FIRST

AND THE GOAL BEHIND THEM

"...new flavor experiences that both *strengthen our appeal with existing loyal users* and *create opportunities to attract new consumers to the franchise.*"

Source: Ross Conroy, Church & Dwight Oral Care R&D, workshop invitation, September 18, 2026

FOR THE ROOM *Anything here you'd argue with?*

Who you'd focus on first

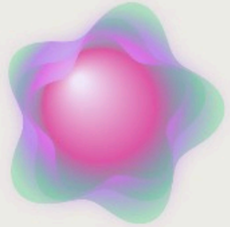

The occasion you'd explore first

WHAT WOULD FEEL WRONG FOR THERABREATH

- *"Don't chase Listerine - but do chase a tangible signal of freshness for the modern era"*
- *"Savory Flavors"*
- *"Clinical solutions - we are too fun for that"*
- *"A medicinal tasting flavor that leaves a burning sensation"*
- *"Depends on the positioning but I don't think floral notes make sense"*
- *"Burning, overly medicinal, or heavy, sugary flavors because they undermine TheraBreath's promise of a clean, fresh mouth without the burn"*
- *"Anything too strong from sensory experience that could be interpreted as stinging or burning"*

What's changing

FROM ROSS'S INVITATION

"Identifying emerging flavor, sensory, and consumer trends that could influence the future of oral care."

TheraBreath built a strong position on a rinse without the burn.

The next job is giving more people a reason to want it.

OUT OF EVERY 100 HOUSEHOLDS

TheraBreath is already number 2 in mouthwash.

14	buy TheraBreath
51	buy mouthwash, not TheraBreath
35	don't buy mouthwash

Flavor could give more of these households a reason to try it.

FOR THE ROOM

Who should the next flavor win over first: the 14 who buy it, the 51 who buy another brand or the 35 who don't buy mouthwash?

WHAT COMPETITORS ARE LAUNCHING

JULY 2025	Listerine	Watermelon Mint. Alcohol-free, for a limited time, and only at Target.
MARCH 2026	Listerine	Citrus Mint, with grapefruit and yuzu. Alcohol-free, at Target.
JUNE 2026	Listerine	A range of intensities, down to Extra Mild, citing a survey in which 54% wanted a milder-tasting option.
2025 TO 2026	Hismile	Toothpaste as entertainment, with tie-ins to Lucky Charms, Reese's, KFC and more.

Sources: Dentistry Today (July 2025 and March 2026), Kenvue (June 2026), CTV News, License Global and DesignRush (Hismile)

WHAT'S ALREADY YOURS

TheraBreath has been alcohol-free and dye-free from the start, its original rinse is made with sodium chlorite, and it already has a kids line. *Finish the sentence: "I'd choose TheraBreath for its flavor if it..."*

NUMBER 1 · 7 VOTES · SEEN IN ORAL CARE

The feel of a rinse is part of its experience.

Symrise launched Optacool Fuji for oral care, promising a quick burst of freshness and long-lasting cooling (Symrise's own claim).

Symrise, February 13, 2025

Mouthfeel is what you feel, not taste: cooling, tingle, warmth, smoothness. It shapes perceived freshness, but it doesn't measure efficacy.

The Flavor Factory's read, not a published finding

WHAT IT COULD MEAN FOR THERABREATH

Design the feel on purpose: how fast it cools, how long it lasts and how it finishes.

FOR THE ROOM

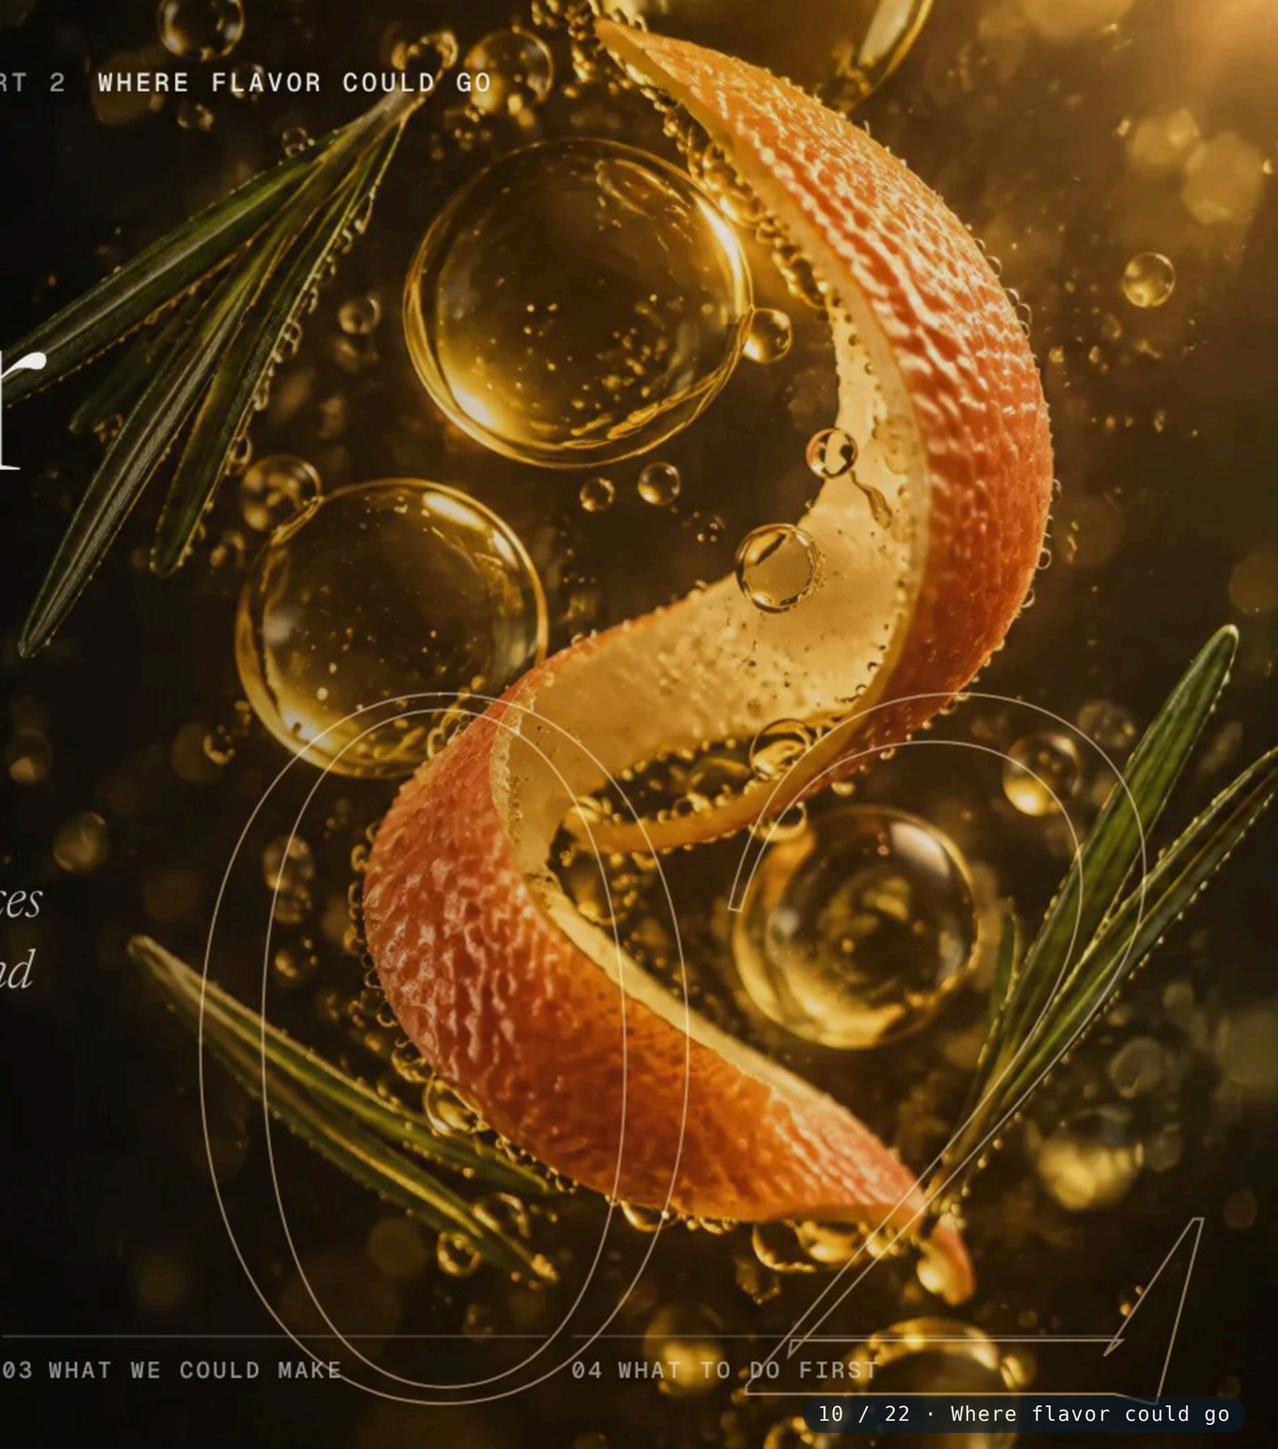

Describe the perfect first ten seconds of a rinse in three words.

Where flavor could go

FROM ROSS'S INVITATION

"Exploring new flavor territories and sensory experiences that can differentiate TheraBreath from competitors and create memorable consumer experiences."

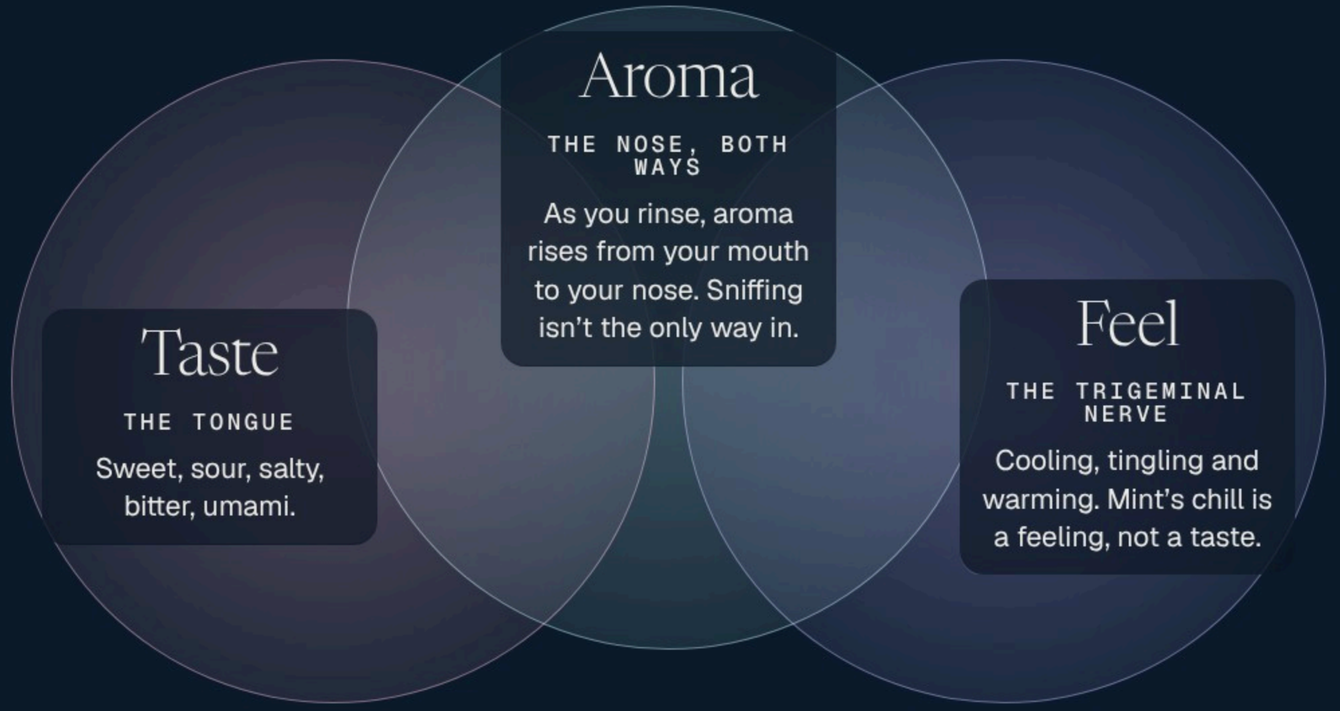

FLAVOR SCHOOL · THREE THINGS TO KNOW BEFORE YOU TASTE

You don’t just *taste* a rinse.

Flavor combines taste, aroma and mouthfeel.

FOR THE ROOM

Which of the three do you notice first in a TheraBreath rinse?

Source: NIH, National Institute on Deafness and Other Communication Disorders, “Taste Disorders”

FLAVOR SCHOOL · THREE THINGS TO KNOW BEFORE YOU TASTE

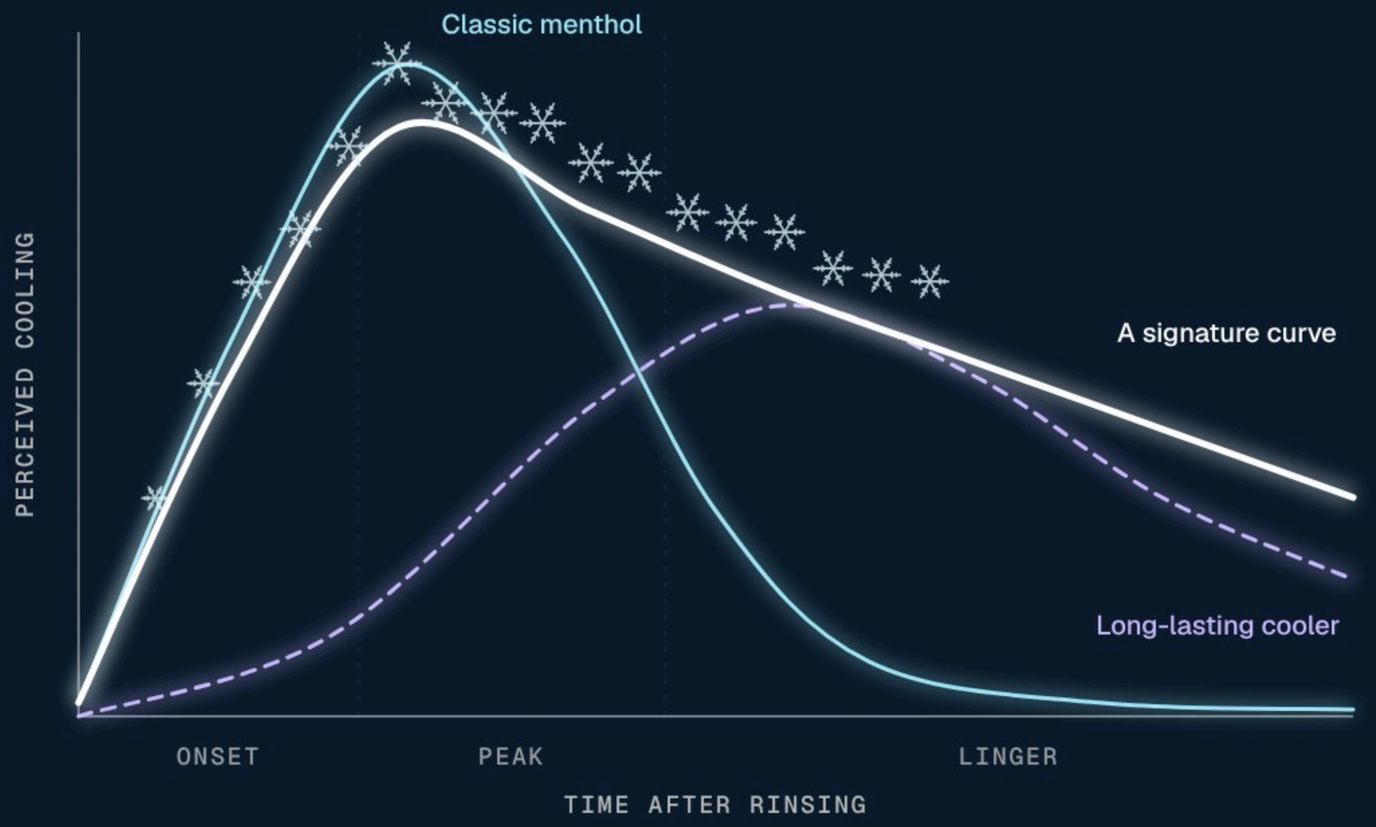

Cool has a shape.

How fast the chill arrives, and how long it stays. We can work on both.

An illustration, not data from these samples.

FOR THE ROOM

Quick blast or slow build: which feels more like TheraBreath?

FLAVOR SCHOOL · THREE THINGS TO KNOW BEFORE YOU TASTE

A flavor isn’t done until *it works in your base.*

From the first rinse to the last day of shelf life.

HOW WE GET THERE

01 Choose materials that suit the base

02 Blend the flavor in and protect what’s fragile

03 Check it holds up in the base we agree on

And whatever we make has to finish clean.

FOR THE ROOM

What’s the toughest flavor you’ve tried to keep alive in a sodium chlorite base?

FOUR DIRECTIONS · OUR VIEW, NOT DATA

Four ways *freshness could go.*

You'll taste two of them in a few minutes. The other two are up for debate.

FOR THE ROOM

Which one would you put on the shelf first? Which one would you argue against?

DIRECTION 1 OF 4 · IN TODAY'S TASTING

Plant-Powered Freshness

Mint with herbs, florals or citrus.

THE FLAVOR ARC

FIRST	THEN	FINISH
Aromatic	Botanical	Mint

WHAT IT TASTES LIKE

An aromatic start, a botanical character and a clean mint finish.

We'll tell you which samples these are after the tasting.

WHO IT'S FOR

Adults who'd like something besides straight mint.

DIRECTION 2 OF 4 · FOR DISCUSSION

Global Brightness

Citrus people already know, taken somewhere new.

THE FLAVOR ARC

FIRST	THEN	FINISH
Citrus	Yuzu	Cold and clean

WHAT IT TASTES LIKE

A burst of citrus, then a cold, clean finish.

WHO IT'S FOR

Morning rinsers and people heading out the door.

DIRECTION 3 OF 4 · FOR DISCUSSION

Modern Clean

A gentle, green, low-impact freshness.

THE FLAVOR ARC

FIRST	THEN	FINISH
Cucumber	Green tea	Soft cooling

WHAT IT TASTES LIKE

Soft cooling, a few green notes and a calm finish.

WHO IT'S FOR

Possibly people who find mouthwash too harsh. That's a hypothesis to test.

DIRECTION 4 OF 4 · IN TODAY'S TASTING

Next-Generation Kids

Fruit-led flavors to make rinse time more appealing.

THE FLAVOR ARC

FIRST	THEN	FINISH
Fruit	Sweet	Clean

WHAT IT TASTES LIKE

Fruity and fun. We especially want your read on the sweetness and the finish.

We'll tell you which samples these are after the tasting.

WHO IT'S FOR

Kids and their parents. We haven't tested it with consumers yet.
