THERABREATH FLAVOR PLAYBOOK NOV 9, 2026 • 10:00 AM • DARWIN

THE FUTURE OF FRESH.

Six new flavor worlds for TheraBreath, each one built to survive the oxygen in the bottle.

PRESENTED BY **The Flavor Factory** • Church & Dwight HQ, Ewing, NJ

× The Flavor Factory

● WELCOME

WHO WE ARE

Hello from **Norco.**

We're The Flavor Factory, a family flavor house from Norco, California. We spend our days at the bench getting flavor to behave in whatever base it has to live in. For TheraBreath, that base runs on oxygen.

TO ADD: TEAM PHOTO, PLUS THE NAMES AND ROLES OF WHO'S HERE TODAY

Family

Run by a family, in Norco, California.

Bench-first

Every flavor built for the base it goes into.

Oxygen-ready

Six new flavors made for sodium chlorite.

THE OBJECTIVE FOR TODAY

Together, define a flavor playbook.

01

Trends

Identify the flavor, sensory and consumer trends shaping the future of oral care.

WE LEAVE WITH

The trends worth acting on

02

Territories

Explore new flavor territories and sensory experiences that strengthen TheraBreath's edge.

WE LEAVE WITH

The territories to prioritize

03

Concepts

Generate concepts that create new usage occasions, reach new consumers and expand the portfolio.

WE LEAVE WITH

Concepts with a clear who and when

04

Pipeline

Build a pipeline of platforms, flavor directions and white space for growth across the franchise.

WE LEAVE WITH

A pipeline from near-term to long-term

- For near-term product innovation and long-term franchise growth.

THE MORNING

10:00 to noon, then lunch.

10:00-10:10	Welcome Introductions and the goal	
10:10-10:30	Trends What's shaping oral care	● OBJECTIVE 01
10:30-10:50	Territories Where fresh could go	● OBJECTIVE 02
10:50-11:20	Taste Six new flavors, blind	● OBJECTIVE 02
11:20-11:40	Create New occasions, new consumers	● OBJECTIVE 03
11:40-12:00	Playbook Prioritize and assign	● OBJECTIVE 04
12:00	Lunch Thank you, Church & Dwight.	

01 TRENDS

What's shaping oral care.

CONSUMER TREND

Beauty

Oral care is joining the self-care shelf.

WHERE WE SEE IT

Layered routines, bathroom “shelfies”, rinse sold beside serums.

FLAVOR TREND

Flavor

People taste a much bigger world now.

WHERE WE SEE IT

Cardamom, rosewater and coconut water in everyday drinks.

SENSORY TREND

Sensation

People want to feel it working.

WHERE WE SEE IT

Cooling skincare, tingling lip care, “you can feel it” claims.

CONSUMER TREND

Rituals

A different fresh for each moment.

WHERE WE SEE IT

Morning and night versions of everything.

02 TERRITORIES · THE BASE

Built to survive oxygen.

In the lab, sodium chlorite is the classic reagent for turning aldehydes into acids. In a rinse it works slowly, but it works the same way.

● SURVIVES SODIUM CHLORITE

Menthol

SATURATED ALCOHOL
Every mint

1,8-Cineole

ETHER
Cardamom

REACTS FAST

Calone

KETONE
Sea air · survives

So we build every flavor from molecules with nothing for the oxidizer to find.

Our bench read. Every flavor goes into accelerated stability in the real base before anyone commits to it.

02 TERRITORIES

Where fresh could go.

Today’s shelf lives in the top-left corner. Six new worlds and three wildcards spread into the white space. Positions are our read.

New Fresh
Fresh that tastes like more than peppermint.

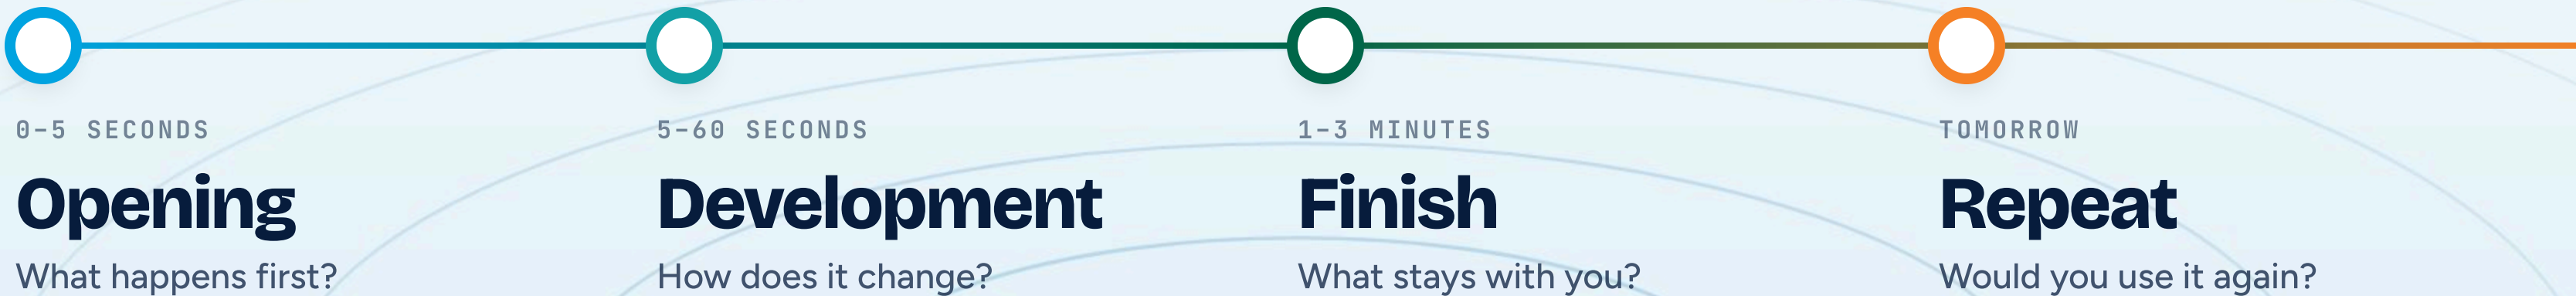

Sensory Proof
Freshness you can feel happening, without the burn.

Ritual by Time
A different kind of fresh for each moment of the day.

Elevated Escape
A small daily luxury, borrowed from spa, tea and fragrance.

THE TASTING

Taste first. Names later.

Freshness
How fresh does my mouth feel?

Liking
Do I enjoy it?

Uniqueness
Have I tasted this in a rinse before?

Would use again
Would I reach for it tomorrow?

Score each one

REVEAL

THE REVEAL

SIX NEW WORLDS.

Named the way TheraBreath names its flavors. Built for sodium chlorite.

FROST MINT

COASTAL MINT

CARDAMOM MINT

COCONUT MINT

ROSEWATER MINT

ORCHARD MINT

× The Flavor Factory

● REVEAL

01 WORLD 01 OF 06

● SAMPLE 318

FROST MINT

Cold that builds, then stays.

● OPENING

A quick, bright
chill.

● HEART

A deeper cool rolls
in, with no burn.

● FINISH

Clean cold that
lingers.

● FOR: PEOPLE WHO WANT INTENSITY WITHOUT THE BURN

● WHEN: WAKE-UP

✓ BUILT TO SURVIVE SODIUM CHLORITE

Menthol • WS-3 • WS-23 • Menthyl lactate

Every cooling molecule in it is saturated: no aldehydes and no fragile double bonds for the oxidizer to find.

CONCEPT MOCKUP

TheraBreath™

FRESH BREATH

ORAL RINSE

STAGED COOLING

FLAVOR CONCEPT • NOT A PRODUCT

FROST MINT

02

WORLD 02 OF 06

● SAMPLE 742

COASTAL MINT

Clean, like the air off the water.

● OPENING

Crisp, cool mint.

● HEART

A mineral, sea-air lift.

● FINISH

Clean, with the faintest salt.

● FOR: MINT-FATIGUED ADULTS WHO STILL WANT CLEAN

● WHEN: MIDDAY RESET

✓ BUILT TO SURVIVE SODIUM CHLORITE

Calone • Sea salt • Menthol

The marine note is a ketone with no aldehyde to oxidize, and salt is already at home in a sodium base.

CONCEPT MOCKUP

TheraBreath™

FRESH BREATH

ORAL RINSE

SEA SALT & MARINE AIR

FLAVOR CONCEPT • NOT A PRODUCT

COASTAL MINT

03 WORLD 03 OF 06

● SAMPLE 506

CARDAMOM MINT

The after-dinner freshener,
reimagined.

● OPENING

An airy,
eucalyptus-like lift.

● HEART

Soft green spice.

● FINISH

Cool, clean mint.

● FOR: FLAVOR-CURIOUS ADULTS WITH GLOBAL PALATES

● WHEN: AFTER A MEAL

✓ BUILT TO SURVIVE SODIUM CHLORITE

1,8-Cineole • Terpinyl acetate • Menthol

Cardamom is rich in 1,8-cineole, one of the most oxidation-stable flavor molecules there is, and it bridges straight to mint.

04 WORLD 04 OF 06

● SAMPLE 261

COCONUT MINT

Soft, smooth and a little tropical.

● OPENING

Gentle, cool mint.

● HEART

Creamy, clean coconut water.

● FINISH

Smooth, with nothing sweet left behind.

● FOR: CLEAN-LABEL FANS OF COCONUT OIL PULLING

● WHEN: EVENING ROUTINE

✓ BUILT TO SURVIVE SODIUM CHLORITE

γ-Nonalactone • δ-Decalactone • Menthol

Coconut's character comes from saturated lactones, which give the oxidizer nothing to grab.

CONCEPT MOCKUP

TheraBreath™

FRESH BREATH

ORAL RINSE

COCONUT WATER

FLAVOR CONCEPT • NOT A PRODUCT

COCONUT MINT

05 WORLD 05 OF 06

● SAMPLE 893

ROSEWATER MINT

A little luxury in the morning routine.

● OPENING

Cool mint.

● HEART

Soft, dewy
rosewater.

● FINISH

Clean mint comes
back.

● FOR: BEAUTY SHOPPERS WHO TREAT ORAL CARE AS SELF-CARE

● WHEN: BEFORE GOING OUT

✓ BUILT TO SURVIVE SODIUM CHLORITE

Phenylethyl alcohol • Menthone • Menthol

Rosewater's softness comes from phenylethyl alcohol, a stable alcohol, rather than fragile rose terpenes.

ORCHARD MINT

Crisp, bright and easy to love.

● OPENING

Crisp, juicy apple.

● HEART

Cool mint rises.

● FINISH

A clean, bright finish.

● FOR: FAMILIES AND FIRST-TIME RINSE USERS

● WHEN: AFTER LUNCH

✓ BUILT TO SURVIVE SODIUM CHLORITE

Hexyl acetate • Ethyl 2-methylbutyrate • Menthol

The crisp apple comes from saturated esters. We leave out the green-apple aldehydes that oxidize.

REVEAL

THREE MORE FROM THE BENCH

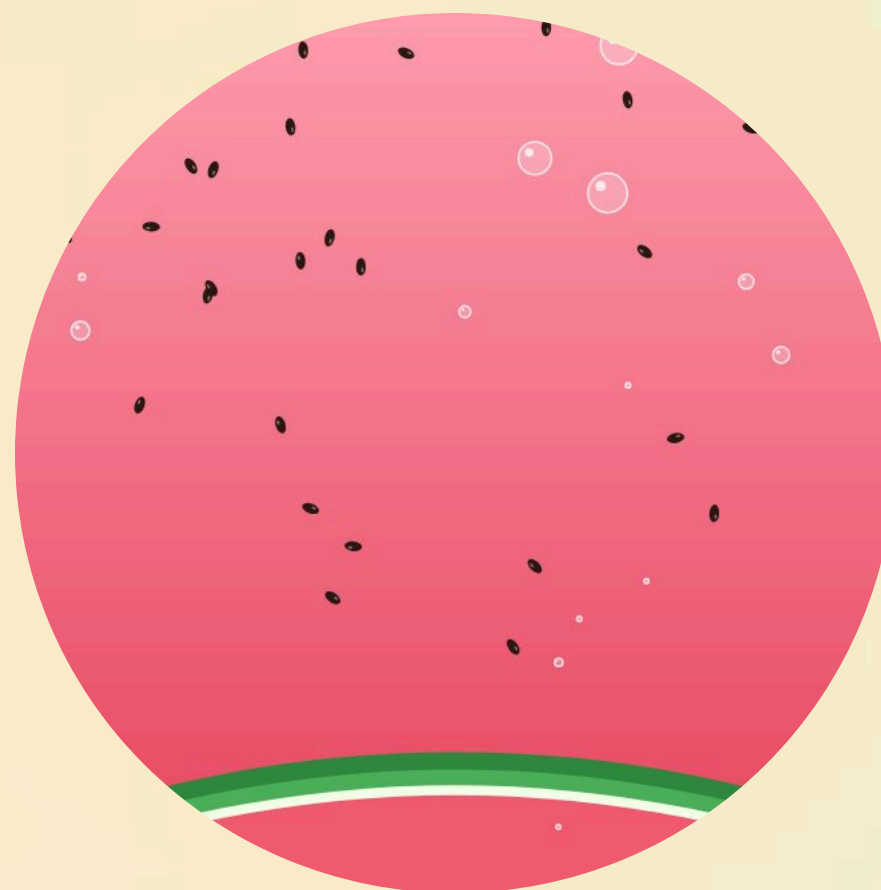

Wildcards, if we want to push.

Sage Mint

Soft garden herbs and cool mint.

Camphor, borneol and cineole are all saturated. We'd build it thujone-free.

Watermelon Mint

Juicy and bright, made for younger users.

Built on the marine ketone and saturated esters, without the melon aldehydes.

Cedar Mint

A walk in the woods. Forest bathing, in a rinse.

Cedrol is a saturated alcohol and one of the most stable woody notes.

03 CREATE

One world. One moment. One person.

PICK A WORLD

Where

● Frost Mint

● Coastal Mint

● Cardamom Mint

● Coconut Mint

● Rosewater Mint

● Orchard Mint

● Sage Mint

● Watermelon Mint

● Cedar Mint

PICK A MOMENT

When

Wake-up

After coffee

After a meal

Before a meeting

Before going out

After the gym

Travel

Wind-down

PICK A PERSON

Who

Strong-but-gentle seekers

Mint-fatigued adults

Self-care and beauty routines

Flavor-curious younger adults

IT TASTES LIKE

WHY THIS PERSON, AT THIS MOMENT

HOW IT STAYS THERABREATH

HORIZON: NEAR · NEXT · LONG

Three checks **before the pipeline.**

01

Does it fit the brand?

Could TheraBreath credibly own it: gentle, dentist-formulated, unmistakably clean?

02

Can we make it?

Does it hold up in sodium chlorite, alcohol-free, over the full shelf life?

03

Will people choose it?

Is it appealing, easy to understand, different, and something people buy again?

● CLEARS ALL THREE

Leads the near term. Anything else moves to Next or Long-term.

DECISION BOARD

Six enter. Three lead the near term.
