Run sheet

THE FUTURE OF FRESHNESS · MONDAY, NOVEMBER 9, 2026 · DARWIN ROOM · FOR THE FLAVOR FACTORY TEAM · NOT FOR HANDING OUT

FROM 9:30: SET UP THE ROOM

- [ ] Connect the laptop to the TV as an extended display, not a mirror. Open the team link, then Present on the day (/host), drag that window to the TV and press F for full screen. Then press P: the presenter view opens in its own window. Keep it on the laptop's screen. It has the talking points, the time in Princeton against this sheet, and buttons that move the presentation. Only this laptop should open the presentation on the day, because it moves everyone's phones. (Church & Dwight's password can't open it.) If the TV will only mirror, skip the presenter view and use this sheet.
- [ ] Phones: people join by scanning the code on the first screen. Phones use their own data, so the room Wi-Fi only matters for the laptop. Ross offered to help us get on the network. If it fails, present from the backup PDF and the film file on the laptop, without the voting.
- [ ] Film backup: the day before, download THE FLAVOR RACE from the team page (flavor-race.mp4: 2:24, 2560 × 1440, with sound) and keep it on the laptop's desktop. Open it once to check it plays. If the site won't play it on the day, play the file from there, full screen, with the sound up. The opening film isn't shown in the room: we open with our own welcome.
- [ ] Sound and picture check, before anyone arrives and on the rehearsal session so nobody's phone moves: open /host?code=REHEARSE on the TV, press F for full screen, then End and the left arrow once to get to THE FLAVOR RACE. Check it fills the screen, play ten seconds through the speakers and set the volume, and press R to check it starts again. Then close that window and open Present on the day. Keep the film off the TV once people start arriving.
- [ ] Rehearse on /host?code=REHEARSE (the team page links to it), never on /host itself, so rehearsal votes stay out of the live session. Leave the live session FOF1109 alone the night before: it holds everyone's pre-brief answers, and the team page shows how many are in.
- [ ] Samples: A and B in the Kids base and C and D in the Fresh Breath base, poured blind into coded cups. Set out water to rinse, cups to spit into and napkins.
- [ ] If we're running late, see If we run behind below. The presenter view shows how far over the current part is and whether the short version is on.
- [ ] Bring a few paper scorecards and pens for anyone who'd rather not use a phone (print them from /scorecard). On the vote slides, the presenter view has a button to add a hand vote for each option, and one to take it back. On the tasting, type each paper card in with Add a paper card. A card typed in by mistake can be removed.

AT A GLANCE: OWNERS, KIT AND WHAT EACH BLOCK SHOULD LEAVE US WITH

TIME	BLOCK	OWNER	TECHNOLOGY AND MATERIALS	OUTPUT
10:00 to 10:10	Welcome, who we are and your four objectives		Laptop on the TV as an extended display, the presenter view (P), the QR code on the arrival screen, Wi-Fi for the laptop.	Phones joined, and the pre-brief answers on screen if any came in.
10:10 to 10:25	What's changing: your portfolio, the market and seven trends		Phones for the trend vote; hand votes in the presenter view for anyone without one.	The three trends that matter most, and what we missed.
10:25 to 10:40	Flavor School, then four directions		The presentation only.	The room's first reactions to each of the four directions, before anything is tasted.
10:40 to 11:00	A blind tasting in your bases		Four samples in coded cups (A and B in the Kids base, C and D in the Fresh Breath base), water, spit cups, napkins, paper scorecards and pens, phones.	Scores for all four samples, the fruit guesses, the names revealed, and five chips each on what gets a next round.
11:00	*Suggested transition: while the chips go in, clear the cups and pens so the table is free for the concept cards at 11:00.*			
11:00 to 11:20	From samples to concepts		The concept cards on the TV, or typed in the presenter view; phones for the dot vote.	Up to three concepts, and the dot vote on which ones to develop.
11:20 to 11:40	White space, then Now, Next, Later		The presenter view for Now, Next, Later (or type on the board).	Each direction under Now, Next or Later with its consumer or occasion, flavor brief, next test, TFF owner, C&D reviewer, base, next-sample date and agreed next step.
11:40 to 12:00	What we decided and what happens next		Speakers loud enough for THE FLAVOR RACE (checked before anyone arrives), the presenter view for its controls, and the film saved on the laptop as a backup.	The plan read back with its owners, the results page saved as a PDF, and the film (about 11:48 to 11:51, or skipped if we're late).

THE TASTING TABLE (CHECK BEFORE 10:40)

- [ ] Cups labeled A to D, nothing else on the label: no names, no fruits.
- [ ] Backup samples of each, in case of a spill or a second pour.

- [ ] Tasting cups, spit cups and napkins at every seat.
- [ ] Water to rinse between samples.
- [ ] Paper scorecards and pens, and the QR code on screen for phones.
- [ ] Reveal: the names flip on screen at the second build of the tasting. Reveal cards only if you're bringing printed ones.

THE RUN OF SHOW

TIME	BLOCK AND SCENES	WHAT HAPPENS
10:00 to 10:10	Welcome, who we are and your four objectives Arrival, Title, Who we are, From July to today, Your four objectives, Your pre-brief answers (only if answers came in), Why we're here	As people sit down, the arrival screen shows the QR code and counts the phones as they join. Thank Ross for having us, introduce the four of us and recap July. Read Ross's four objectives and his goal, and show the pre-brief answers if any came in. Then explain why we're here: TheraBreath took the burn out of mouthwash, and the next job is giving more people a reason to want it.
10:10 to 10:25	What's changing: your portfolio, the market and seven trends OBJECTIVE 01 Part 1, 86 out of 100 households, The portfolio today, What competitors are launching, Seven trends, Vote: the three that matter most	Open with the household gap, then walk through the portfolio and what competitors are launching. The seven trends come up one click at a time. After that, everyone votes for three on their phone, and the presenter view adds a vote by hand for anyone without one. The top three go into the Playbook. Finish by asking what we missed.
10:25 to 10:40	Flavor School, then four directions OBJECTIVE 02 Part 2, What flavor is, How cooling works, Flavor and OXYD-8, How a TheraBreath flavor is built, Four directions, then one scene per direction	Cover taste, smell and feel, and how cooling works. Explain why OXYD-8 is a hard place for flavor to live and how a TheraBreath flavor has to finish. Then show the four directions on one map and go through them one at a time. Two of them have samples in the tasting, and the other two are there for discussion.
10:40 to 11:00	A blind tasting in your bases OBJECTIVE 02 The blind tasting, Where each sample landed, Vote: what gets a next round	Pour A and B in the Kids base and C and D in the Fresh Breath base. Everyone scores each sample on their phone or the paper scorecard, and the scores fill the screen as they come in. Type the paper cards into the presenter view as they're handed in. B is the Mystery Flavor, so get everyone's fruit guesses before the names go up. Then show where each sample landed, and have everyone place five chips on what should get a next round.
11:00 to 11:20	From samples to concepts OBJECTIVE 03 Part 3, Concepts, Vote: which ideas to develop	Take the directions with the most chips and write up to three concepts together. For each one, cover where it starts, who it's for, the moment, its role in the range, the format, and whether it grows loyal users, new users or both. Type them straight into the cards on screen. Then everyone gets three dots on their phone to vote for the ones worth developing.
11:20 to 11:40	White space, then Now, Next, Later OBJECTIVE 04 Part 4, Where TheraBreath fits in a day, Now, Next, Later	Walk through the day, moment by moment: where TheraBreath is today, the moment the pre-brief says is missing, and everything that's still open. Click a cell to mark where each concept could fit. Then put each concept and direction under Now, Next or Later, one line each with its consumer or occasion, the flavor brief, the next test, a TFF owner, a C&D reviewer, the base, the date the next sample is due and the agreed next step. Type them on the board or in the presenter view. The top votes sit in a tray above the board: click one to start its line under Now.

TIME	BLOCK AND SCENES	WHAT HAPPENS
11:40 to 12:00	What we decided and what happens next What we decided, What happens next, THE FLAVOR RACE, Thank you	The Playbook fills in from the votes and the board, and opens one chapter at a time so it can be read back, the plan with its owners last. Read it back, go through the three next steps and say thank you. Then, at about 11:48, THE FLAVOR RACE: a surprise for the room, so don't announce it. Give it three minutes: lights down, sound up, 2:24 of film, and a moment after. It starts only when you move onto it, and you can pause, restart or skip it from the presenter view or the keys. If we're running late, skip it: every decision and owner is already saved before it. The last slide is a thank-you card. Then lunch, hosted by Church & Dwight.

SLIDE BY SLIDE

Planned minutes, so each part ends on time; the presenter view shows each slide's planned window. Numbers match the presenter view's Go to list. Slides marked optional are the ones S skips. Your pre-brief answers (6) shows only once someone has answered; if nobody has, its three minutes are spare.

PLANNED	#	SLIDE	ON SCREEN, CLICK BY CLICK	ASK THE ROOM, AND THE PHONES
10:00 TO 10:10 · WELCOME, WHO WE ARE AND YOUR FOUR OBJECTIVES				
Before 10:00	1	Arrival	The QR code, the number of phones joined and their first names.	*Phones: Scan the code and type a first name.*
10:00 1 min	2	The Future of Freshness		Welcome, thank Ross, and set up the two hours: four objectives, four samples, a plan to leave with.
10:01 2 min	3	Who we are	Who we are, what we test in the lab, and what we bring in from outside oral care.	
10:03 1 min	4	From July to today	The four July themes. 1 Growth, November, lights up.	
10:04 2 min	5	Your four objectives	"We've built the morning around your four objectives." 1 Objective 01 and its time, 10:10 to 10:25. 2 Objective 02, 10:25 to 11:00. 3 Objective 03, 11:00 to 11:20. 4 Objective 04, 11:20 to 11:40. 5 Ross's goal, in his words.	
10:06 3 min	6	Your pre-brief answers IF ANSWERED	Who the next flavor should be for, with any "Someone else" answers. 1 The moment TheraBreath is missing, and the group's freshness profile. 2 What would feel off-brand, without names.	What makes each off-brand answer feel wrong for the brand?
10:09 1 min	7	Why we're here	"TheraBreath took the burn out of mouthwash." 1 "The next job is giving more people a reason to want it."	
10:10 TO 10:25 · WHAT'S CHANGING: YOUR PORTFOLIO, THE MARKET AND SEVEN TRENDS · OBJECTIVE 01				

PLANNED	#	SLIDE	ON SCREEN, CLICK BY CLICK	ASK THE ROOM, AND THE PHONES
10:10 1 min	8	What's changing	Part 1 of 4, 10:10 to 10:25: objective 01 in Ross's words.	
10:11 2 min	9	86 out of 100 households	Two glasses fill: 65 for mouthwash, 14 for TheraBreath (Church & Dwight's Q3 call), with the record 26.8% share. 1 "86 out of 100 households don't buy TheraBreath yet," and "The other 86." 2 "Flavor could give more of them a reason to try it."	Of the 86 households, 35 don't buy mouthwash at all. Which group is a new flavor for?
10:13 1 min	10	The portfolio today	21 of 25 flavors are mint, across six formats. 1 "There's a lot of room around mint."	
10:14 2 min	11	What competitors are launching	"Your competitors are launching flavors, mostly as limited editions." 1 Listerine Watermelon Mint, July 2025. 2 Listerine Citrus Mint, March 2026. 3 TheraBreath Eucalyptus Mint, March 2026. 4 Listerine's range of intensities, June 2026. 5 Hismile tie-ins, 2025 to 2026. 6 Where TheraBreath stands.	TheraBreath already has what they're chasing. What keeps it ahead?
10:16 5 min	12	Seven trends	The seven trends as a list. Clicks 1 to 7: one trend each, with its evidence and where it comes from, what it could mean, and a question for the room. About forty seconds each.	Which one surprised you most?
10:21 4 min	13	Vote: the three that matter most	The vote: seven bars fill as phones vote. 1 The top three, which go into the Playbook. 2 "What are you seeing that we missed?"	*Phones: Pick three trends. Hand votes in the presenter view for anyone without a phone.*
10:25 TO 10:40 · FLAVOR SCHOOL, THEN FOUR DIRECTIONS · OBJECTIVE 02				
10:25 1 min	14	Where flavor could go	Part 2 of 4, 10:25 to 11:00: objective 02 in Ross's words.	
10:26 2 min	15	What flavor is	"Most of what we call flavor is really smell. The rest is how it feels." 1 Taste: the tongue. 2 Aroma: the nose, both ways. 3 Feel: the trigeminal nerve.	
10:28 1 min	16	How cooling works OPTIONAL	Classic menthol's curve (drawn to explain, not measured). 1 A long-lasting cooler. 2 A signature curve. 3 "We tune both."	
10:29 2 min	17	Flavor and OXYD-8 OPTIONAL	OXYD-8 is tough on bacteria, and on flavor. 1 Controlling pH. 2 Dissolving and protecting the flavor. 3 Choosing materials that hold up.	

PLANNED	#	SLIDE	ON SCREEN, CLICK BY CLICK	ASK THE ROOM, AND THE PHONES
10:31 1 min	18	How a TheraBreath flavor is built OPTIONAL	"It has to finish clean." 1 First impression. 2 Main flavor. 3 Finish. 4 How long it lasts.	
10:32 2 min	19	Four directions	The map: familiar to adventurous, gentle to bold. Our view, not data. 1 The four directions. 2 "Two of these are in today's tasting."	Which direction feels most like TheraBreath, and which stretches it most?
10:34 2 min	20	Plant-Powered Freshness	Plant-Powered Freshness: its flavor arc and profile. 1 Where it stands, what it tastes like, who it's for.	Which of the two samples feels more like TheraBreath?
10:36 1 min	21	Global Brightness OPTIONAL	Global Brightness: its flavor arc and profile. 1 Where it stands, what it tastes like, who it's for.	Is there a citrus that could sit comfortably next to your mints?
10:37 1 min	22	Modern Clean OPTIONAL	Modern Clean: its flavor arc and profile. 1 Where it stands, what it tastes like, who it's for.	Can a gentle flavor still feel fresh enough?
10:38 2 min	23	Next-Generation Kids	Next-Generation Kids: its flavor arc and profile. 1 Where it stands, what it tastes like, who it's for.	Would a mystery flavor get kids more interested in rinsing?
10:40 TO 11:00 · A BLIND TASTING IN YOUR BASES · OBJECTIVE 02				
10:40 12 min	24	The blind tasting	Four coded samples and how many have scored. A and B first, then C and D, with water between. 1 Their one-word answers and fruit guesses. 2 The names, after everyone has scored. B shows its name only.	*Phones: Score each sample: appeal, fit with TheraBreath and newness from 1 to 5, who would buy it, which direction it comes from, whether to develop it, one word. Fruit guesses for the Mystery Flavor. Paper cards typed into the presenter view.*
10:52 3 min	25	Where each sample landed	Each sample placed by fit with TheraBreath (across) and newness (up), sized by appeal. 1 The names on the bubbles, and "first reactions, not consumer research."	Top right is what Ross asked for: both at once. What would it take to move the others there?
10:55 5 min	26	Vote: what gets a next round	The vote: four samples and two untasted directions. 1 The top three.	What would set TheraBreath's flavors apart from what competitors are launching? *Phones: Five chips each, stacking allowed. Hand chips in the presenter view.*

PLANNED	#	SLIDE	ON SCREEN, CLICK BY CLICK	ASK THE ROOM, AND THE PHONES
11:00 TO 11:20 · FROM SAMPLES TO CONCEPTS · OBJECTIVE 03				
11:00 1 min	27	What we could make	Part 3 of 4, 11:00 to 11:20: objective 03 in Ross's words.	
11:01 15 min	28	Concepts	Three concept cards to type into: where it starts, who it's for, when, role in the range, format, what it grows.	Which moment of the day is TheraBreath missing? Who could a new flavor bring in? If the room is stuck, offer an example concept from this sheet.
11:16 4 min	29	Vote: which ideas to develop	The vote: the concepts and the four samples. 1 The top three.	*Phones: Three dots each, stacking allowed.*
11:20 TO 11:40 · WHITE SPACE, THEN NOW, NEXT, LATER · OBJECTIVE 04				
11:20 1 min	30	What to do first	Part 4 of 4, 11:20 to 11:40: objective 04 in Ross's words.	
11:21 5 min	31	Where TheraBreath fits in a day	A day from wake-up to wind-down, plus on the go, with a row per concept (or per sample and direction). 1 Where TheraBreath is today: rinse, and lozenges, gum and sachets on the go. 2 The moment the pre-briefs say is missing, and their most common answer for who the next flavor is for. 3 Everything still open. Click a cell to mark where an idea fits.	Where have we got today wrong? Where could each idea fit?
11:26 14 min	32	Now, Next, Later	Now, Next, Later, with the top votes in a tray above. Click one to start its line under Now.	What should go first, and what has to be true for it to work? For each line: consumer or occasion, flavor brief, next test, TFF owner, C&D reviewer, base, next sample date, agreed next step.
11:40 TO 12:00 · WHAT WE DECIDED AND WHAT HAPPENS NEXT				
11:40 5 min	33	What we decided	The Playbook assembles from the morning. 1 Chapter 1, the trends. 2 Chapter 2, the directions and the tasting. 3 Chapter 3, the concepts. 4 Chapter 4, the plan: read it back, owners and all. 5 The cover. The write-up comes within 8 business days.	
11:45 3 min	34	What happens next	"Thank you. Here's what happens next." 1 An owner for each direction. 2 The write-up within 8 business days. 3 The next round of samples, in January 2027.	

PLANNED	#	SLIDE	ON SCREEN, CLICK BY CLICK	ASK THE ROOM, AND THE PHONES
11:48 3 min	35	THE FLAVOR RACE	THE FLAVOR RACE, 2:24, lights down and sound up. Don't announce it.	*Phones: Phones show "Phones down for a couple of minutes."*
11:51 9 min	36	Thank you	The thank-you card. Lunch at 12:00, hosted by Church & Dwight.	

IF WE RUN BEHIND

1. A few minutes behind: press S. It skips the optional slides (How cooling works, Flavor and OXYD-8, how a flavor is built, and the two directions that aren't in the tasting), and the presenter view shows the short version is on.
2. Further behind: take the seven trends as headlines only and go straight to the vote, and write one concept together instead of three. Press] to jump to the next part.
3. Out of time: End goes straight to the thank-you card, so the film can be skipped without losing anything. Read back Now, Next, Later with its owners first, even if that means no film.
4. Never cut: the blind tasting, the chips on what gets a next round, and the owners and next steps on Now, Next, Later.

IF THE ROOM NEEDS A STARTING POINT: TWO EXAMPLE CONCEPTS

Offer one only if the room is stuck, and let them change it. The assumptions are ours, not facts.

A calmer last rinse of the day

FOR	Loyal TheraBreath users
WHEN	Wind-down, the last rinse before bed
FLAVOR DIRECTION	A softer botanical mint, in the Fresh Breath base, next to what Overnight Chamomile Mint already does
HOW IT FEELS	Gentle cooling that fades rather than lingers, no sting, a calm aromatic finish
WHAT WE'D TEST	Does softer cooling still read as clean to a loyal user? Do the botanical notes hold up in the base over time?

- *Assumption: loyal users want a different feel at night than in the morning.*
- *Assumption: the botanical notes stay stable in the base. That needs a bench check.*

A guessing game at the sink

FOR	Families with kids and tweens
WHEN	The evening routine with the kids
FLAVOR DIRECTION	A fruit flavor sold as a mystery, in the Kids base, in the spirit of the Mystery Flavor sample
HOW IT FEELS	A fruit-forward start, mild cooling, a clean finish
WHAT WE'D TEST	Do kids enjoy guessing more than a named fruit? Do parents still see it as a real oral care product? How much cooling do kids accept?

- *Assumption: the guessing makes kids want to rinse.*
- *Assumption: a mystery name works for parents in store. Both need testing with families.*

AFTER THE MORNING

- [ ] Before you close the laptop, open /host?results=1 and print it to PDF: the votes, the scores, the concepts, the white-space marks and Now, Next, Later as we left them. The Playbook write-up (/host/writeup) fills in from the same session.
- [ ] Collect the paper scorecards, and check each one is typed in.
- [ ] An owner for each direction: Before we leave today, every direction gets its consumer or occasion, a flavor brief, the next test, a TFF owner, a C&D reviewer, a base, a date for the next sample and an agreed next step.
- [ ] The write-up within 8 business days: We'll pull today's scores, choices, owners and dates into one document and send it to everyone here.
- [ ] The next round of samples: We'll make the next round in your bases and go through it with you in January 2027.

BEFORE NOVEMBER 9: STILL TO CONFIRM

- [ ] The Flavor School wording, with Ryan.
- [ ] The bases: Berry Blast and the Mystery Flavor in the Kids base, Blossom Mint and Grove Mint in the Fresh Breath base.
- [ ] The dates on What happens next, including the January 2027 review.
- [ ] A video call with Ross before the day. He asked to connect once or twice ahead of time.
- [ ] Whether to tell the room what's in the Mystery Flavor once the names go up. The presentation, the phones and the write-up show its name but not its contents, so the room can keep guessing.
- [ ] That the samples were made in the unflavored bases Church & Dwight sent, as the front door says.

Confidential. Keys in the presentation: right arrow, space or click to go on (clicks don't move on while there are boxes to type in); left arrow to go back;] for the next part and [for the previous one; S to skip the optional slides; Home for the start; End for the thank-you card, which skips the film; F for full screen; P for the presenter view; N for the talking points on the TV itself; B to blank the screen. On THE FLAVOR RACE, space or K pauses and plays and R starts it again. The same keys work in the presenter view. If the page reloads, it picks up where the session left off.
