NOVEMBER

FROM ROSS'S INVITATION

# You asked for four things. *Here's when we'll get to each one.*

## 01

Identifying emerging flavor, sensory, and consumer trends that could influence the future of oral care.

10:10 TO 10:25
WHAT'S CHANGING

## 02

Exploring new flavor territories and sensory experiences that can differentiate TheraBreath from competitors and create memorable consumer experiences.

10:25 TO 11:00
WHERE FLAVOR COULD GO

## 03

Developing innovative flavor concepts that unlock new usage occasions, address new consumer segments, and create opportunities for portfolio expansion.

11:00 TO 11:20
WHAT WE COULD MAKE

## 04

Generating a pipeline of innovation platforms, flavor directions, and white-space opportunities that have the potential to drive incremental growth across the portfolio.

11:20 TO 11:40
WHAT TO DO FIRST

AND THE GOAL BEHIND THEM

"...new flavor experiences that both *strengthen our appeal with existing loyal users* and *create opportunities to attract new consumers to the franchise.*"

TheraBreath took the burn out of mouthwash.

The next job is giving more people a reason to want it.

PART 1 OF 4 · 10:10 TO 10:25

# What's changing

FROM ROSS'S INVITATION

*"Identifying emerging flavor, sensory, and consumer trends that could influence the future of oral care."*

US HOUSEHOLDS THAT BUY MOUTHWASH

# *86* out of 100 US households don't buy TheraBreath yet.

## Flavor is one of the best ways to reach them.

TheraBreath had 25.3% of US mouthwash in Q2 2026, up 4.5 points, which makes it number 2 in the category. Even so, most households still don't buy it.

WHERE YOU STAND

TheraBreath has been alcohol-free and dye-free from the start. It has OXYD-8, and it already has a kids line. *So the real question is how flavor keeps it ahead.*

WHAT WE'RE SEEING

# Seven trends we think matter *for oral care.*

01 People want milder mouthwash.

02 Warm spices are showing up in fresh flavors.

03 Fruit flavors are growing up.

04 Botanicals are showing up in daily routines.

05 Dessert flavors are moving into oral care.

06 People judge whether it works by how it feels.

07 More people live with dry mouth or changed taste.

TREND 7 OF 7

## More people live with dry mouth or changed taste.

Right now, 1 in 8 US adults takes a GLP-1. Many report dry mouth, bad breath or changes in taste, though studies haven't shown that the drugs cause them.

CareQuest Institute, August 2026

More than 25 million Americans live with dry mouth.

WHAT IT COULD MEAN FOR THERABREATH

*Flavors made for dry mouth and changed taste could become a line of their own.*

FLAVOR SCHOOL · HOW COOLING WORKS

# Cooling does two jobs.

*There's the hit when you first rinse, and there's how long it lasts. We tune both.*

Drawn to explain the idea. These aren't measured curves.

FLAVOR SCHOOL · FLAVOR AND OXYD-8

# OXYD-8 is built to be tough on the bacteria behind bad breath, and that makes it tough on flavor too.

FOUR DIRECTIONS

# Where we think *flavor could go.*

Two of these are in today's tasting. For the other two, we just want your opinion.

Our view, not data.

DIRECTION 1 OF 4 · EVERY DAY

# Plant-Powered Freshness

## In today’s tasting

Citrus, herbs and a touch of floral, always finished with mint.

### WHERE IT STANDS

We made two botanical samples for today, both in your Fresh Breath base.

These are still development samples, and we’re testing how well they hold up in the base.

### WHAT IT TASTES LIKE

It opens bright with citrus and herbs and finishes on mint.

We’ll tell you which samples these are after the tasting.

### WHO IT’S FOR

Adults who’d like something besides straight mint.

DIRECTION 2 OF 4 · MORNINGS AND GOING OUT

# Global Brightness

## For discussion

Citrus people already know, taken somewhere new.

### WHERE IT STANDS

This one isn't in today's tasting, but we'd love your read on it.

### WHAT IT TASTES LIKE

A burst of citrus, then a cold, clean finish.

### WHO IT'S FOR

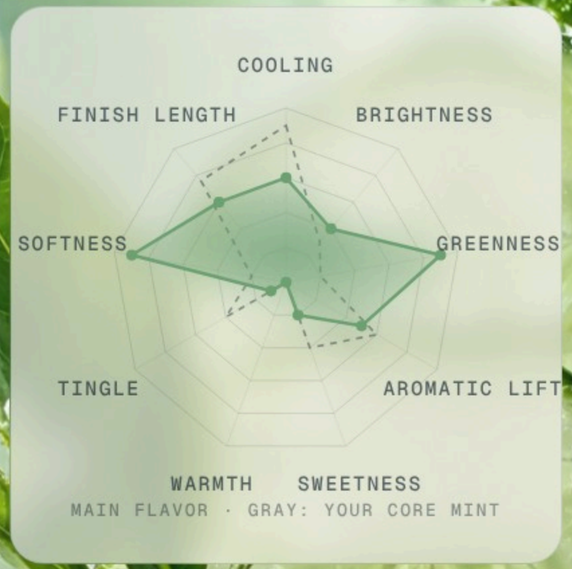

Morning rinsers, people heading out the door, and markets outside the US.

DIRECTION 3 OF 4 · MIDDAY

# Modern Clean

## For discussion

Green, gentle freshness for people who find mouthwash too strong.

### WHERE IT STANDS

It isn't in today's tasting, and it would need consumer testing in your base first.

### WHAT IT TASTES LIKE

Soft cooling, a few green notes and a calm finish.

### WHO IT'S FOR

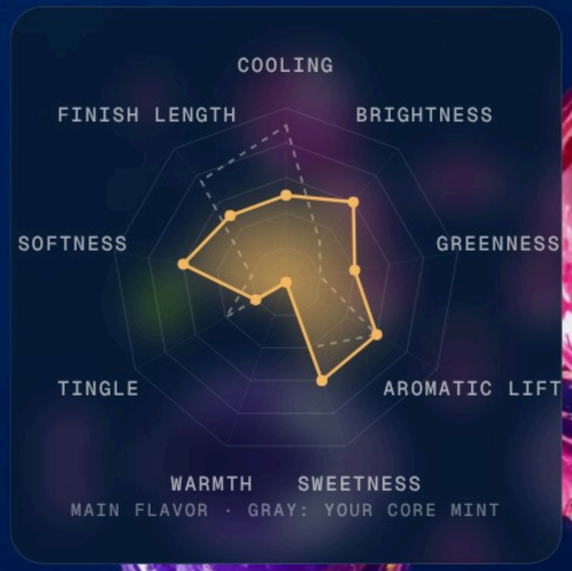

People who skip mouthwash because they find it too harsh.

DIRECTION 4 OF 4 · BRUSHING AND RINSING TIME

# Next-Generation Kids

## In today’s tasting

Flavors that make kids actually want to rinse.

### WHERE IT STANDS

We made two samples for kids today, both in your Kids base.

Both are starting points rather than final picks.

### WHAT IT TASTES LIKE

Fruity and fun. We especially want your read on the sweetness and the finish.

We’ll tell you which samples these are after the tasting.

### WHO IT’S FOR

Kids and their parents. We haven’t tested it with consumers yet.
