THERABREATH × THE FLAVOR FACTORY
The Future of Freshness
A working session with Church & Dwight Oral Care R&D
MONDAY, NOVEMBER 9, 2026 · DARWIN ROOM · PRINCETON, NEW JERSEY

THE FLAVOR FACTORY · NORCO, CALIFORNIA

Who we are

We make flavors for oral care. Half of the job is science: will it survive the bottle? The other half is knowing what people actually want to taste.

WHAT WE TEST IN THE LAB

- Volatile aromatics
- Sensory perception
- Cooling
- Trigeminal sensations
- Taste masking
- Solubility
- Stability
- Oral-care systems

WHAT WE BRING IN FROM OUTSIDE ORAL CARE

- Culture
- Emotion
- Consumer expectation
- Food and beverage trends
- Hospitality
- Beauty
- Wellness
- Travel
- Ritual

BUSINESS OPERATIONS

Ryan Wixted

QUALITY CONTROL

Matt Wixted

DIRECTOR OF OPERATIONS

You asked to see our creativity, technical expertise, and innovation capabilities. *That is what this morning is for.*

FROM JULY TO TODAY

When you visited Norco in July, we talked about four things. *Today is about the fifth.*

01
Resiliency
JULY

02
Innovation
JULY

03
Operations
JULY

04
Partnership
JULY

05
Growth
NOVEMBER

FROM ROSS'S INVITATION

You asked for four things. *Here is when we get to each one.*

01

Identifying emerging flavor, sensory, and consumer trends that could influence the future of oral care.

10:10 TO 10:25
WHAT'S CHANGING

02

Exploring new flavor territories and sensory experiences that can differentiate TheraBreath from competitors and create memorable consumer experiences.

10:25 TO 11:00
WHERE FLAVOR COULD GO

03

Developing innovative flavor concepts that unlock new usage occasions, address new consumer segments, and create opportunities for portfolio expansion.

11:00 TO 11:20
WHAT WE COULD MAKE

04

Generating a pipeline of innovation platforms, flavor directions, and white-space opportunities that have the potential to drive incremental growth across the portfolio.

11:20 TO 11:40
WHAT TO DO FIRST

AND THE GOAL BEHIND THEM

"...new flavor experiences that both *strengthen our appeal with existing loyal users* and *create opportunities to attract new consumers to the franchise*."

Source: Ross Conroy, Church & Dwight Oral Care R&D, workshop invitation, September 18, 2026

TheraBreath took the burn out of mouthwash.

The next job is giving more people a reason to want it.

PART 1 OF 4 · 10:10 TO 10:25

What's changing

FROM ROSS'S INVITATION

"Identifying emerging flavor, sensory, and consumer trends that could influence the future of oral care."

HOUSEHOLD PENETRATION · US

86 out of 100 US households don't buy TheraBreath yet.

Flavor is one of the best ways to reach them.

25.3% of US mouthwash in Q2 2026, up 4.5 points, and number 2 in the category. Share is climbing fast. Most households still haven't tried it.

Source: Church & Dwight Q2 2026 earnings call, July 31, 2026. TheraBreath 14%, mouthwash category 65%

YOUR PORTFOLIO TODAY · 25 FLAVORS ACROSS SIX FORMATS

So where else could flavor take you?

Source: TheraBreath public product listings

RECENT LAUNCHES · ALL PUBLIC

Your competitors are launching flavors, *mostly as limited editions.*

JULY 2025

Listerine

Watermelon Mint, alcohol-free, limited time, Target exclusive.

Dentistry Today, July 18, 2025

MARCH 2026

Listerine

Citrus Mint with grapefruit and yuzu, alcohol-free, Target.

Dentistry Today, March 12, 2026

MARCH 2026

TheraBreath

Eucalyptus Mint, Target exclusive.

DrBicuspid, March 3, 2026

JUNE 2026

Listerine

An intensity range including Extra Mild, citing that 54% of Americans want a milder-tasting mouthwash.

Kenvue press release, June 2, 2026

2025 TO 2026

Hismile

Toothpaste as entertainment: collaborations with Lucky Charms, Reese's, KFC and more.

Public press coverage, 2024 to 2026

WHERE YOU STAND

TheraBreath has been alcohol-free and dye-free from the start, it has OXYD-8, and it already has a kids line. *So the question is how flavor keeps you ahead.*

WHAT WE ARE SEEING

Seven trends we think matter *for oral care.*

01 People want milder mouthwash.

02 Warm spices are showing up in fresh flavors.

03 Fruit flavors are growing up.

04 Botanicals and daily routines.

05 Dessert flavors are moving into oral care.

06 People judge whether it works by how it feels.

07 More people live with dry mouth or changed taste.

TREND 7 OF 7

More people live with dry mouth or changed taste.

1 in 8 US adults currently take a GLP-1; users commonly report dry mouth, bad breath and taste changes, though studies have not established that the drugs cause them.

CareQuest Institute, August 2026

More than 25 million Americans live with dry mouth.

Perfumer & Flavorist, "From Mint to Marshmallow," April 29, 2026

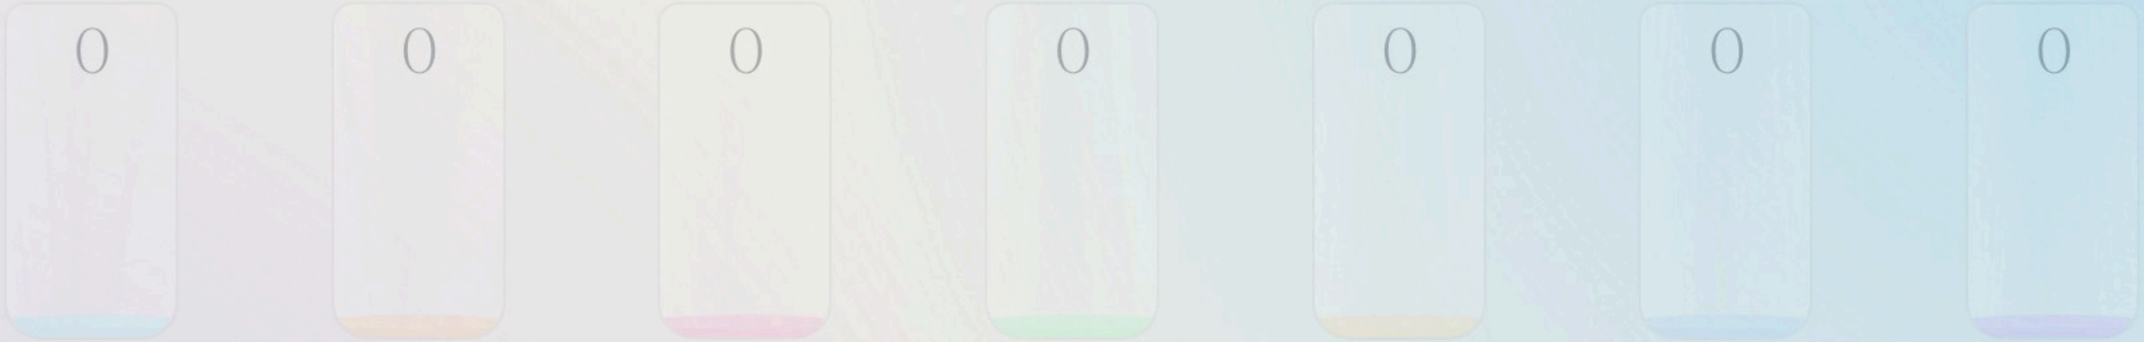

WHAT IT COULD MEAN FOR THERABREATH

Flavors made for dry mouth and changed taste could be a line of their own.

VOTE ON YOUR PHONE · 0 VOTES SO FAR

Which three matter most *for TheraBreath?*

SCAN TO VOTE

01 People want milder mouthwash

02 Warm spices are showing up in fresh flavors

03 Fruit flavors are growing up

05 Dessert flavors are moving into oral care

06 People judge whether it works by how it feels

07 More people live with dry mouth or changed taste

AND *What are you seeing that we missed?*

PART 2 OF 4 · 10:25 TO 11:00

Where flavor could go

FROM ROSS'S INVITATION

"Exploring new flavor territories and sensory experiences that can differentiate TheraBreath from competitors and create memorable consumer experiences."

FLAVOR SCHOOL · WHAT FLAVOR IS

Most of what we call flavor is really smell. *The rest is how it feels.*

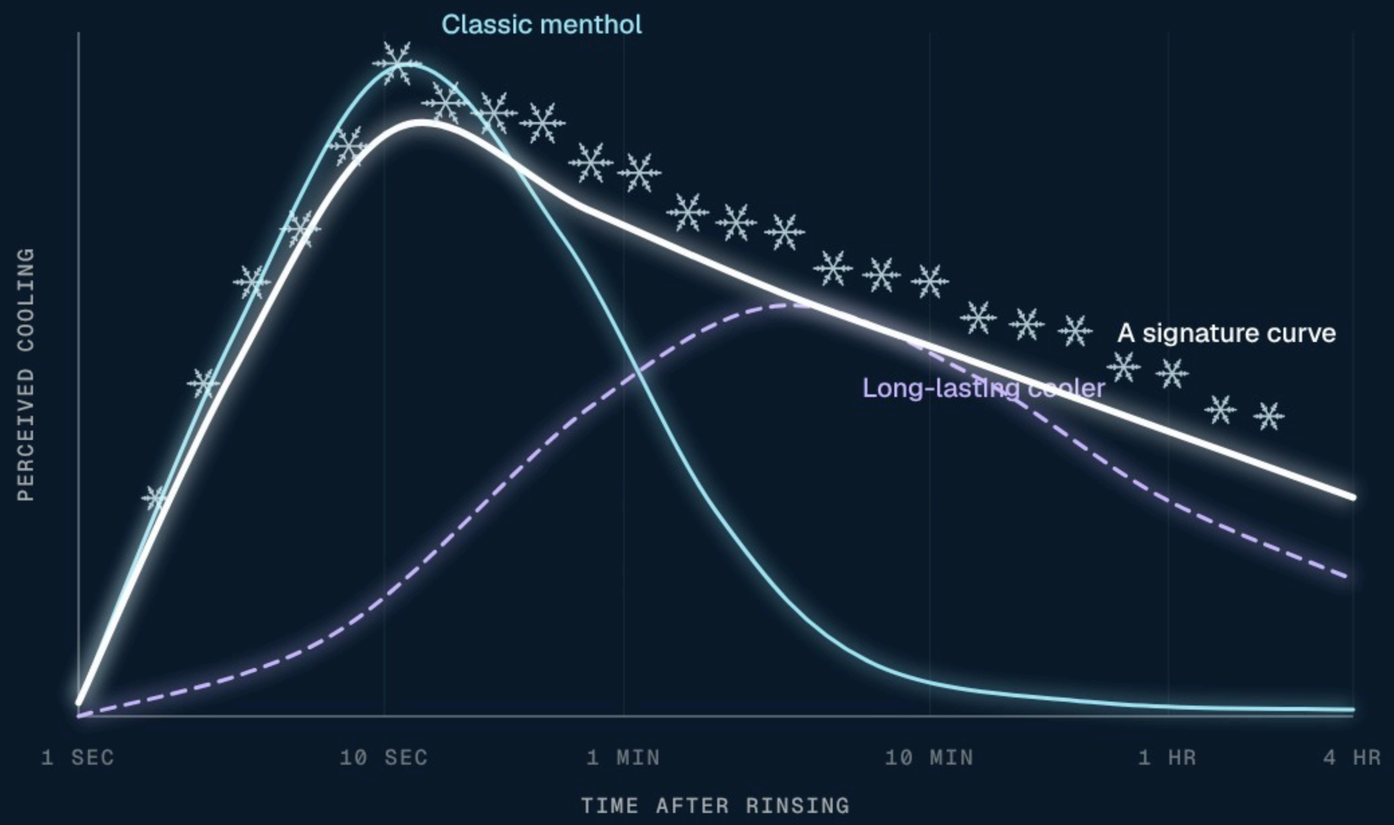

Source: Perfumer & Flavorist, "From Mint to Marshmallow," April 29, 2026

FLAVOR SCHOOL · HOW COOLING WORKS

Cooling does two jobs.

The hit when you first rinse, and how long it lasts after. We tune both.

Drawn to explain the idea. These are not measured curves.

FLAVOR SCHOOL · FLAVOR AND OXYD-8

OXYD-8 is built to be tough on the bacteria behind bad breath. That makes it hard on flavor too.

01 Controlling pH

02 Dissolving and protecting the flavor

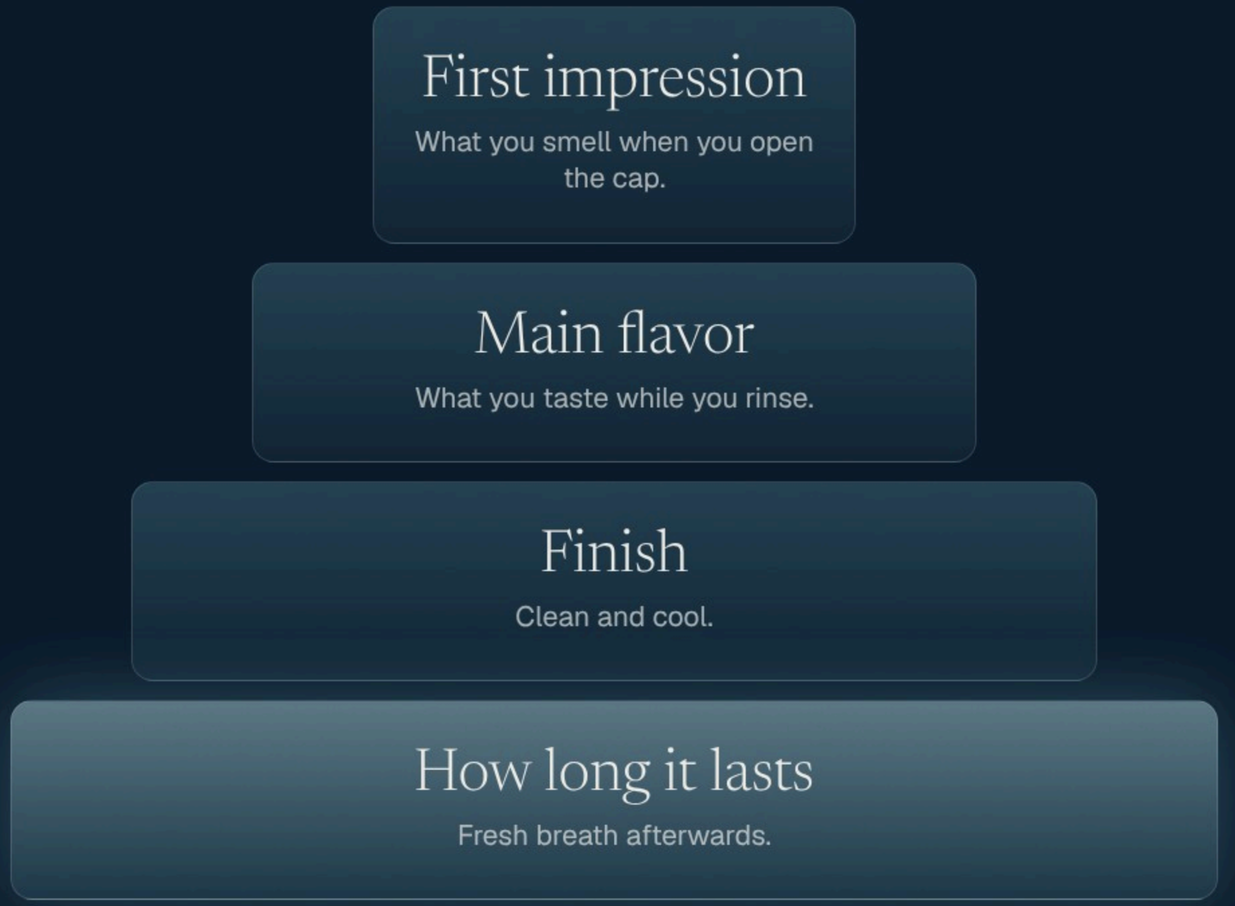

03 Choosing materials that hold up

A flavor only counts if it still tastes right after months on the shelf.

Source: US Patent 6,582,682 (public). Public chemistry only. No TheraBreath or TFF formula details

FLAVOR SCHOOL · HOW IT IS BUILT

It can start anywhere. *It has to finish clean.*

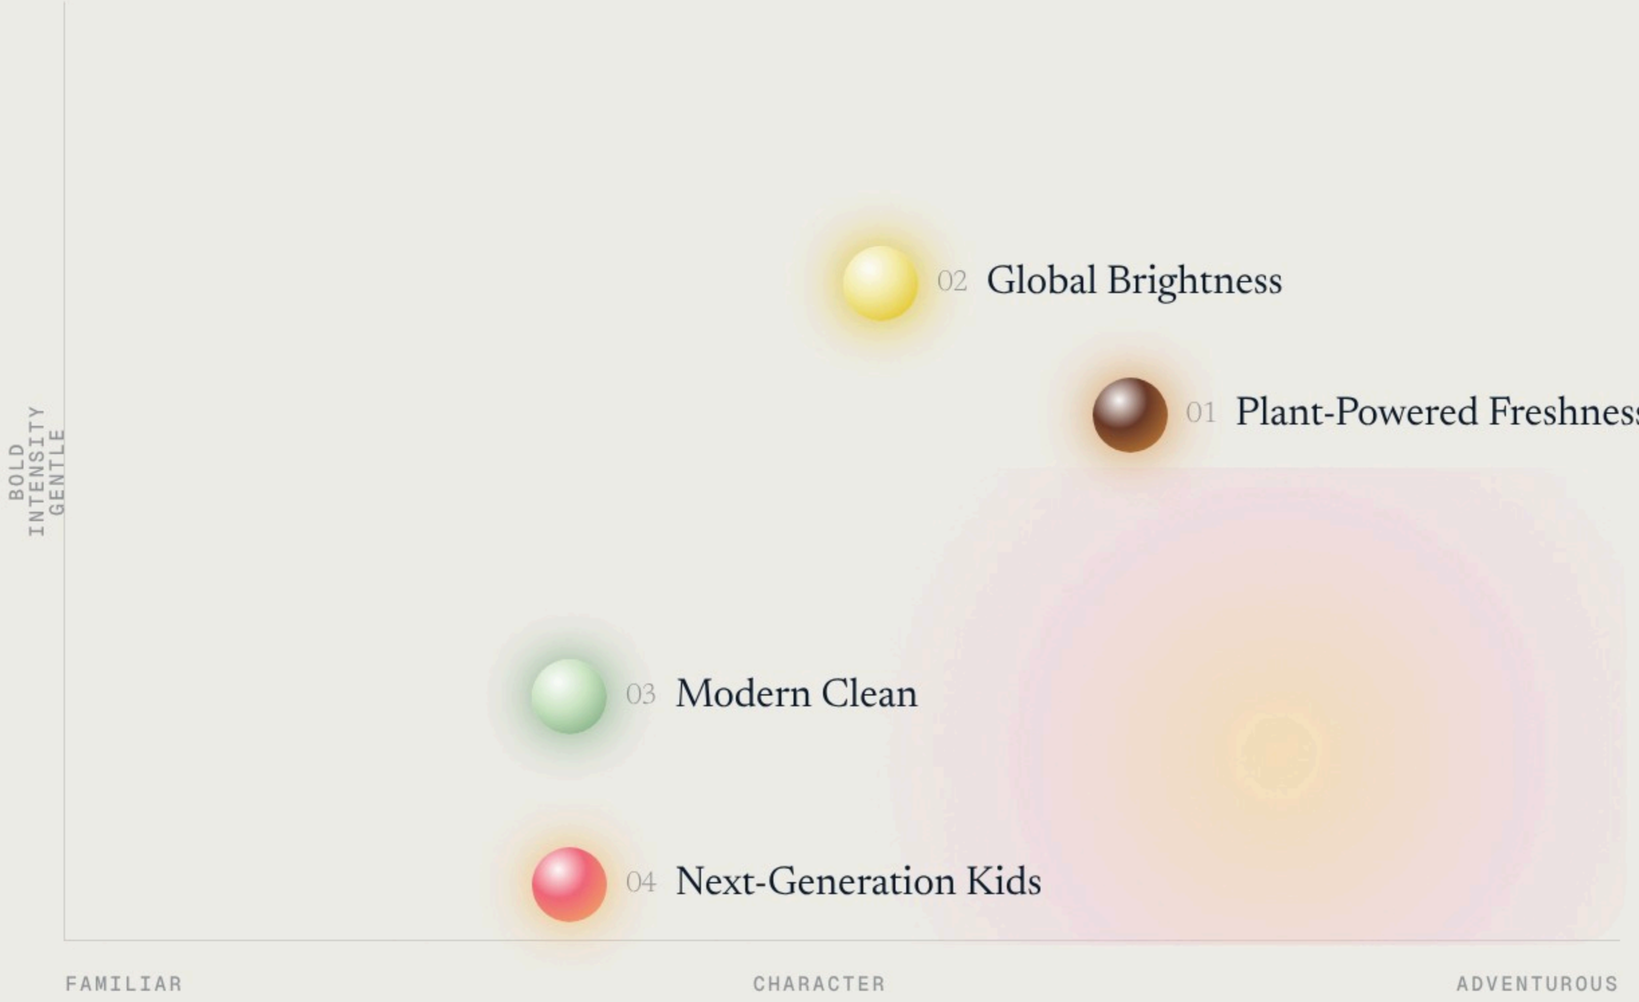

FOUR DIRECTIONS

Where we think *flavor could go.*

Two of these are in today's tasting. We want your opinion on the other two.

Our view, not data.

DIRECTION 1 OF 4 · EVERY DAY

Plant-Powered Freshness

In today's tasting

Citrus, herbs and florals, finished with mint.

WHERE IT STANDS

We made two botanical samples for today in your Fresh Breath base.

These are development samples. We are still checking how they hold up in the base.

WHAT IT TASTES LIKE

Bright citrus and herbs, with a mint finish.

We will tell you which samples these are after the tasting.

WHO IT IS FOR

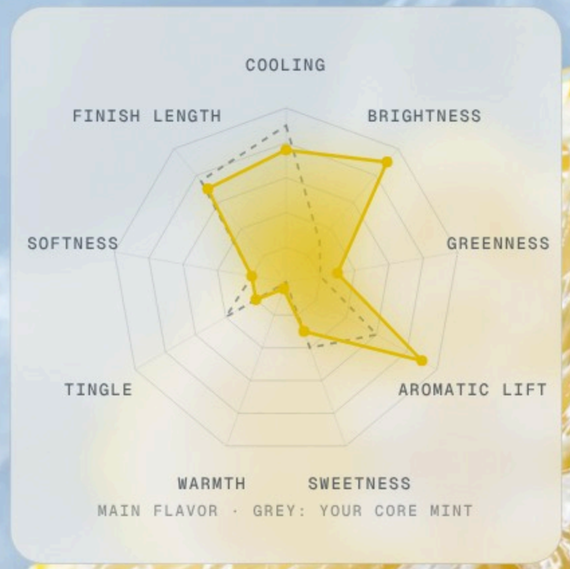

Adults who want something other than straight mint.

DIRECTION 2 OF 4 · MORNINGS AND GOING OUT

Global Brightness

For discussion

Citrus people already know, taken somewhere new.

WHERE IT STANDS

Not in today's tasting. We would like your read on it.

For discussion only today.

WHAT IT TASTES LIKE

A burst of citrus, then a cold, clean finish.

WHO IT IS FOR

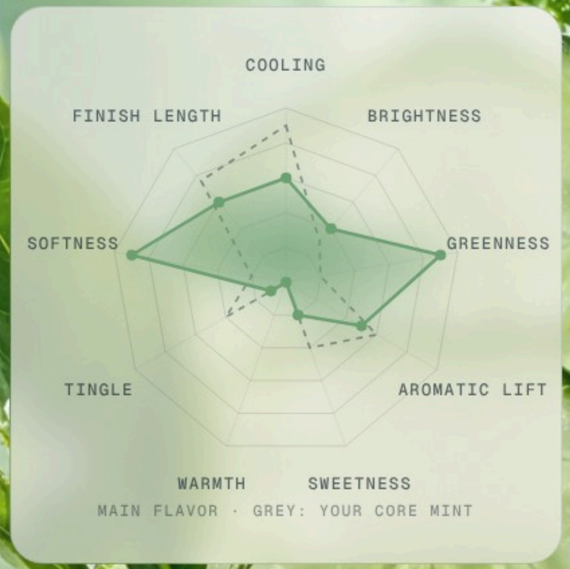

Morning rinsers, people heading out, and international markets.

DIRECTION 3 OF 4 · MIDDAY

Modern Clean

For discussion

Green, gentle freshness for people who find mouthwash too strong.

WHERE IT STANDS

Not in today's tasting. It would need consumer testing in your base.

For discussion only today.

WHAT IT TASTES LIKE

Soft cooling, green notes and a calm finish.

WHO IT IS FOR

People who skip mouthwash because it is too harsh.

DIRECTION 4 OF 4 · BRUSHING AND RINSING TIME

Next-Generation Kids

In today's tasting

Flavors that make kids want to rinse.

WHERE IT STANDS

We made two kids samples for today in your Kids base.

Both are starting points, not final picks.

WHAT IT TASTES LIKE

Fruity and fun. We want your read on the sweetness and the finish.

We will tell you which samples these are after the tasting.

WHO IT IS FOR

Kids and their parents. We have not tested this with consumers yet.

THE BLIND TASTING · MADE IN THE BASES YOU SENT · 0 PEOPLE HAVE SCORED

Four samples, *tasted blind.*

SCAN TO VOTE

Score each one on your phone, or on the paper card. We will tell you what they are once everyone is done.

	APPEAL	FEELS LIKE THERABREATH	NEWNESS	WHO IT IS FOR
A Blossom Mint Grapefruit, Lavender, Rose, Spearmint, Wintergreen				
B Grove Mint Spearmint, Peppermint, Wintergreen, Rosemary, Ylang Ylang, Eucalyptus				
C Berry Blast Blueberry, Blackberry, Raspberry				
D Mystery Flavor Apple, Grape, Cherry, Strawberry, Lemon				

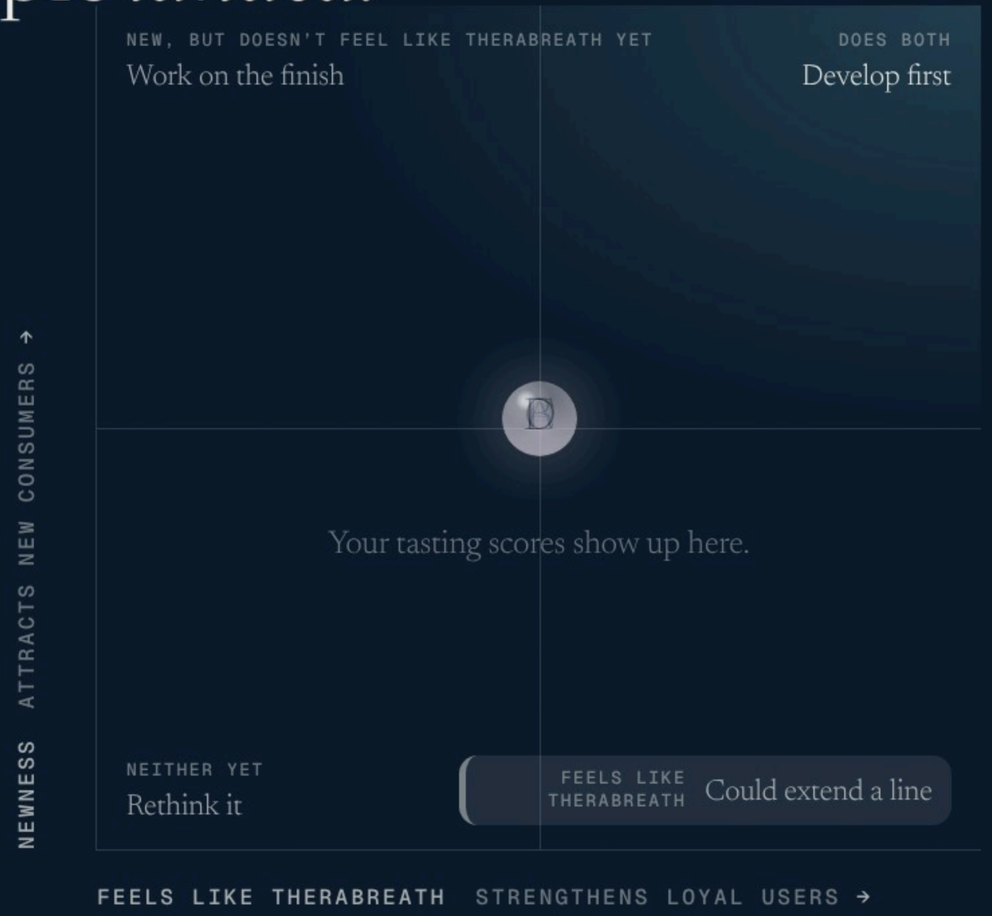

Your one-word answers will show up here.

FROM YOUR SCORES · 0 PEOPLE

Where each sample *landed.*

Our goal, as R&D, is to drive incremental growth through flavor innovation by identifying and developing new flavor experiences that both *strengthen our appeal with existing loyal users* and *create opportunities to attract new consumers to the franchise.*

Source: Ross Conroy, Church & Dwight Oral Care R&D, workshop invitation, September 18, 2026

- A — Blossom Mint — NOT SCORED
- B — Grove Mint — NOT SCORED
- C — Berry Blast — NOT SCORED
- D — Mystery Flavor — NOT SCORED

These are first reactions from this group, not consumer research.

PART 4 OF 4 · 11:20 TO 11:40

What to do first

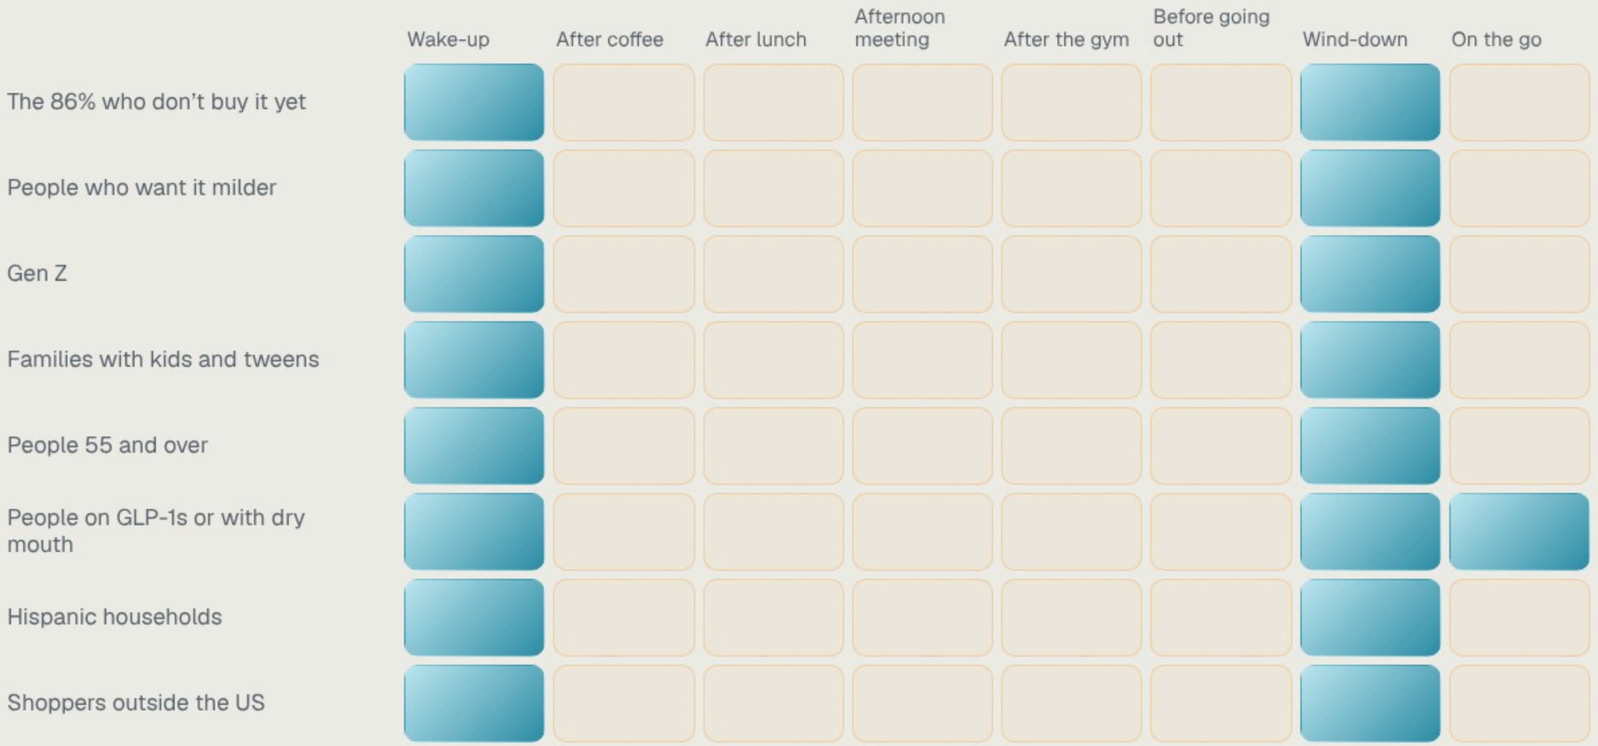

FROM ROSS'S INVITATION

"Generating a pipeline of innovation platforms, flavor directions, and white-space opportunities that have the potential to drive incremental growth across the portfolio."

PART 4 · MOMENTS OF THE DAY, BY CONSUMER · OUR READ, SO PLEASE CORRECT IT

Most of the day *is still open.*

- Where we think TheraBreath is today: at the sink in the morning and at night, and the dry mouth lozenge on the go.
- Your pre-brief answers show up here: the consumer you most want to win, and the moment you said is missing.
- Everything in between. No TheraBreath flavor is made for these moments yet.
- Where today's concepts could fit.

Our read of where TheraBreath is present today, to challenge: the morning and bedtime rinse, and the dry mouth lozenge on the go.

PART 4 · NOW, NEXT, LATER

What should go first? *And what has to be true for it to work?*

TOP VOTES THIS MORNING *The top concepts and directions from the votes show up here.*

Later

PLATFORMS TO KEEP EXPLORING

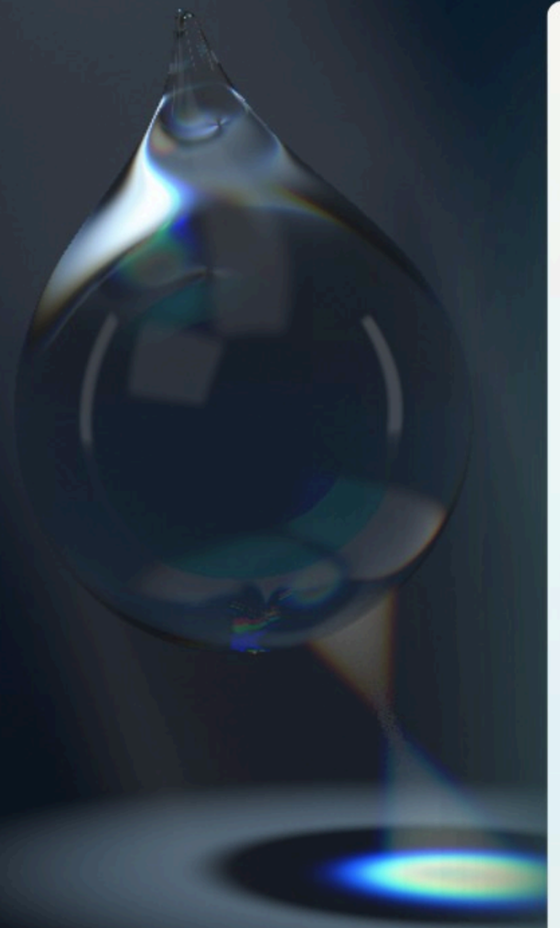

One line per direction

For each one: a TFF owner, a C&D reviewer, the base and the next sample step.

WRAPPING UP

Here is what *we decided.*

We will write it up and send it to everyone here within 8 business days.

THERABREATH × THE FLAVOR FACTORY

The Flavor Playbook

What we decided on November 9, 2026

Church & Dwight Oral Care R&D and The Flavor Factory

DRAFT · PRINCETON, NEW JERSEY

WHAT HAPPENS NEXT

Thank you. *Here is what happens next.*

01

An owner for each direction

Before we leave today, each direction gets a TFF owner, a C&D reviewer, a base and a next sample step.

02

The write-up within 8 business days

Today's scores, choices, owners and dates in one document, sent to everyone here.

03

The next round of samples

We make the next round in your bases and review it with you in January 2027.
