

Expand what fresh can feel like.

A working session to choose the platforms
and concepts worth developing next
for TheraBreath.

PRESENTED BY **The Flavor Factory** • Church & Dwight HQ, Ewing, NJ •

Monday, November 9, 2026

— WHO WE ARE

A family-owned flavor house in Norco, California.

We make custom liquid and powder flavors, including for oral care. We're small on purpose: you work directly with the people formulating your flavor, and samples come back fast.

To add: team photo, plus the names and roles of who's here today

Custom, from the bench

Every flavor built for the product it goes into, liquid or powder.

Oral care is part of what we do

One of the industries we already make flavors for.

Low minimum orders

Small pilot batches keep testing a new flavor affordable.

Fast turnaround

Most orders ship within 3–5 business days.

— OUR GOAL FOR TODAY

Today we leave with **a short list.**

2

Innovation platforms

Territories TheraBreath could own across several launches.

3

Lead concepts

Tasted, scored and cleared against three checks.

1

Owner per test

With a named next action and a date.

- **The goal is decisions.**

— THE WORKSHOP ARC

Two hours, four moves.

**0:00 – 0:35**

Frame

Where fresh could go

Signals, flavor culture, the white space and four platforms.

WE LEAVE WITH

A shared view of the opportunity

**0:35 – 1:20**

Taste

Six concepts, the whole rinse

Blind samples scored from the first second to tomorrow morning.

WE LEAVE WITH

A room score for every sample

**1:20 – 1:45**

Choose

Three checks

Brand fit, technical reality and consumer desire.

WE LEAVE WITH

Three concepts and two platforms

**1:45 – 2:00**

Assign

Owners and next steps

One owner, one action and one date for each test.

WE LEAVE WITH

The short list

THE SHELF TODAY: ONE ORANGE CAP, THREE MINTS

— THE OPPORTUNITY

The benefit is familiar. The flavor can do more.

OWNED TODAY

Trust

Gentle, effective, non-burning freshness. It stays at the center.

THE OPPORTUNITY

Character

A reason to notice the product and remember it.

THE PAYOFF

Repeat use

An experience people enjoy is one they choose again tomorrow.

Notice → Remember → Choose → Enjoy → Come back

— THE WORLD AROUND THERABREATH

What people call **fresh** is changing.

Beauty

Personal-care rituals

Oral care is joining the skincare shelf as one more step in a self-care routine.

WHERE WE SEE IT

Layered skincare routines, bathroom “shelfies”, oral care sold beside serums.

Flavor

A broader vocabulary

People now taste yuzu, shiso and cardamom in drinks, snacks and wellness shots.

WHERE WE SEE IT

Zero-proof bars, functional beverages, global menus, fine fragrance.

Sensation

Sensory proof

People want an effect they can feel and describe. That is how they know it works.

WHERE WE SEE IT

Cooling skincare, tingling lip products, “you can feel it working” claims.

Trust

Everyday wellness

Products earn a place in the day: morning energy, midday reset, evening calm.

WHERE WE SEE IT

Sleep and hydration rituals, adaptogen drinks, “night” versions of everything.

— PORTFOLIO REALITY

Mint is an anchor, not the whole map.

← Familiar

Classic peppermint, cool mint. Trusted, and easy to forget.

The sweet spot

Familiar enough to trust, different enough to remember. Placements are our flavorists' read.

Exploratory →

Smoked chili cola, pickle-brine mint. Memorable once, hard to buy twice.

— THE RULE FOR EVERY IDEA

Keep one familiar cue. Change one thing people notice.

KEEP

One familiar freshness cue

Cooling, a clean finish, a thread of mint.

CHANGE

One thing people notice

A fruit, a botanical, a warmth, a moment.

GET

Familiar · Fresh · Distinct

Something people trust and still talk about.

● **Arctic Yuzu**

KEEP

The cold, clean finish

CHANGE

Sharp Japanese citrus

● **Green Tea Cucumber**

KEEP

Gentle, clean freshness

CHANGE

A calm, spa-like botanical

● **Ginger Lime**

KEEP

Crisp cooling

CHANGE

A little warmth

— FOUR INNOVATION PLATFORMS

Four places TheraBreath could grow.

01

New Fresh

Expand what fresh tastes like, well beyond peppermint.

Bright fruit, citrus peel, tea, cool greens, soft herbs.

- Arctic Yuzu
- Green Tea Cucumber
- Grapefruit Rose Mint

02

Sensory Proof

Flavor and sensation that make freshness perceptible.

Cooling bloom, bright top note, contrast, a long clean finish.

- Arctic Yuzu
- Ginger Lime

03

Ritual by Time

Different moments of the day call for different kinds of fresh.

Morning lift, midday reset, after coffee, going out, wind-down.

- Green Tea Cucumber
- Ginger Lime
- Chamomile Vanilla Mint

04

Elevated Escape

Premium flavor worlds from fragrance, spa, tea and zero-proof bars.

Fragrance structure, hospitality, culinary pairings.

- Grapefruit Rose Mint
- Pear Cardamom Mint

— THE TASTING

Taste the whole rinse.

Score each dimension

1 2 3 4 5

1 = not at all · 5 = absolutely

— BLIND TASTING

Room scorecard

SAMPLE	FRESHNESS	UNIQUENESS	FLAVOR LIKING	THERABREATH FIT	MEMORABILITY	REPEAT-USE POTENTIAL	SENSORY EXPERIENCE	ONE WORD
261								
318								
437								
506								
742								
893								
150 Control								

● 150 = current TheraBreath control

Score 1–5. Names are revealed after scoring.

— THE REVEAL

What you just tasted.

Polar Light

Arctic Yuzu

SAMPLE 318

Glasshouse

Green Tea Cucumber

SAMPLE 742

Limelight

Ginger Lime

SAMPLE 506

Pink Hour

Grapefruit Rose Mint

SAMPLE 261

Green Orchard

Pear Cardamom Mint

SAMPLE 893

Lights Out

Chamomile Vanilla Mint

SAMPLE 437

CONCEPT 01 / 06

● SAMPLE 318

Polar Light

Arctic Yuzu · Bright citrus, very cold.

BRIGHT · ICY · CITRUS · CLEAN · MODERN · ENERGETIC

The first breath outside on a clear winter morning, lit by citrus.

OPENING	Sharp, bright yuzu peel.
DEVELOPMENT	A clean cold wave builds, with no burn.
FINISH	Bright, awake, completely clean.

FORMULATION NOTE

Build the yuzu from oxidation-tolerant top notes, since citral-heavy lemon profiles fade in oxidizing rinse systems. Non-menthol cooling agents carry the cold without the burn.

PLATFORMS

New Fresh Sensory Proof

STAY CLEAR OF

Lemon mouthwash. Snowflakes.

CONCEPT 02 / 06

● SAMPLE 742

Glasshouse

Green Tea Cucumber · Botanical calm, poured cold.

CLEAN · BOTANICAL · SPA-LIKE · CALM · HYDRATING · EFFORTLESS

A glass of cold water in a quiet, sunlit room.

OPENING

Soft green sencha, cool and light.

DEVELOPMENT

Watery cucumber freshness settles in.

FINISH

Hydrated and calm, nothing left over.

FORMULATION NOTE

Cucumber’s green notes are volatile and fragile. A quiet spearmint backbone protects the profile and keeps it reading as oral care.

PLATFORMS

New Fresh

Ritual by Time

STAY CLEAR OF

Health-food store. Cucumber slices on eyes.

CONCEPT 03 / 06

● SAMPLE 506

Limelight

Ginger Lime · Cool lime with a little warmth.

BRIGHT · KINETIC · WARMING · CRISP · ENERGETIC · UNEXPECTED

Cold lime on the tongue, then a spark of warmth underneath.

OPENING

A zesty lime snap.

DEVELOPMENT

Ginger warmth rises under the cool.

FINISH

Crisp, energized, clean.

FORMULATION NOTE

Warmth has to read as lively, never as burn, because no-burn is the TheraBreath promise. Keep ginger's pungency well below irritation and let cooling lead.

PLATFORMS

Sensory Proof

Ritual by Time

STAY CLEAR OF

Margaritas. Anything that looks like a cocktail.

CONCEPT 04 / 06

● SAMPLE 261

Pink Hour

Grapefruit Rose Mint · Golden hour, in pink.

ELEVATED · AROMATIC · MODERN BOTANICAL · CITRUS FLORAL

Morning light through pink glass.

OPENING	Juicy pink grapefruit.
DEVELOPMENT	A dry, green rose heart: more stem than petal.
FINISH	Cool mint comes back to close.

FORMULATION NOTE

Use a green, geranium-leaning rose accord rather than a sweet floral. That keeps it far from soap and perfume cues.

PLATFORMS

Elevated Escape

New Fresh

STAY CLEAR OF

Perfume counter. Bath soap.

CONCEPT 05 / 06

● SAMPLE 893

Green Orchard

Pear Cardamom Mint · Pear and cardamom, finished cool.

ELEGANT · LAYERED · CULINARY · PREMIUM · SOPHISTICATED

A chef's pairing, translated into freshness.

OPENING	Crisp green pear, cool.
DEVELOPMENT	Cardamom's airy, eucalyptus-like lift.
FINISH	Soft, clean spice held by mint.

FORMULATION NOTE

Cardamom naturally carries 1,8-cineole, the same cool note as eucalyptus. It is a built-in bridge between spice and mint.

PLATFORMS

Elevated Escape

STAY CLEAR OF

Holiday baking. Dessert.

CONCEPT 06 / 06

● SAMPLE 437

Lights Out

Chamomile Vanilla Mint · The last rinse of the day.

CALM · EVENING · GENTLE · SOFT · COMFORTING

Lights low. The day is done.

OPENING	Gentle, soft mint.
DEVELOPMENT	Honeyed chamomile calm.
FINISH	A dry vanilla softness, still clean.

FORMULATION NOTE

Keep the vanilla dry and airy, low in sweetness, so the finish reads clean rather than dessert.

PLATFORMS

Ritual by Time

STAY CLEAR OF

Tea packaging. Candles.

Brand Fit × Technical Reality × **Consumer Desire**

1

Does it fit the brand?

Could TheraBreath credibly own this: gentle, dentist-formulated, unmistakably clean?

2

Can we make it?

Will the flavor hold up in TheraBreath's oxidizing, alcohol-free system over shelf life?

3

Will people choose it?

Is it appealing, easy to understand, different, and something people buy again?

— DECISION BOARD

Six enter. Three advance.

CONCEPT	FITS THE BRAND	WE CAN MAKE IT	PEOPLE WILL CHOOSE IT	ADVANCE
● Polar Light ARCTIC YUZU	☐	☐	☐
